## THREE-AND-A-HALF PER CENT. LOAN.

His Excellency the Right Honourable the Governor General in Council has resolved to borrow two hundred and fifty lakhs of rupees for the public service in the following manner :

2. Promissory Notes will be issued for the said amount in the Form annexed to this Notification, being the form of the notes of *the Three-and-a-half Per Cent. Loan of 1900-01*, of which loan the notes to be now issued will form a part. All the conditions which apply to notes of *the Three-and-a-half Per Cent. Loan of 1900-01*, will apply to the notes to be now issued. The interest on the notes of that loan is payable half-yearly on the 30th day of June and the 31st day of December ; and the notes are not liable to discharge before the 31st day of December 1920.

### *Tenders.*

3. Tenders for the whole or any part of the said amount of Rs. 2,50,00,000 will be received by the Comptroller General from this date to noon, standard time,\* of Wednesday, the 17th July 1907. Tenders must be for sums of 100 Rupees or multiples of that sum.

4. Each tender must be addressed, in the form annexed to this Notification, to the Comptroller General, Calcutta, and enclosed in a closed cover, superscribed "*Tender for the Three-and-a-half Per Cent. Loan.*" If the tenderer is not

resident in India, he must name an agent resident in India to whom an allotment-certificate may be issued, if any part of the loan is allotted to such tenderer.

Note (1).—Tenders made in accordance with these instructions will also be received by the Accountants General at Madras, Bombay, Allahabad, Lahore and Rangoon on account of the Comptroller General, Calcutta, on the 16th July, and up to noon, standard time,\* on the 17th July; provided that—

- (a) they are delivered personally or by clerk or messenger at the Accountant General's Office (where a receipt will be given for them);
- (b) they are made on printed forms, to be obtained at the same office or at the local Presidency Bank;
- (c) each tender is for not less than Rs. 10,000;
- (d) the deposit is either a promissory note or a Treasury Receipt from the local Office of the Presidency Bank, or a cheque on a local Bank in favour of the Accountant General;
- (e) the amount of the tender is made payable at the place of tender (Madras, Bombay, Allahabad, Lahore or Rangoon) as the case may be, or in Calcutta;

The Accountant General will return deposits on non-accepted tenders and will issue allotment-certificates so far as the tenders are payable in Madras, Bombay, Allahabad, Lahore or Rangoon.

5. The rate at which each tender is made must be specified in rupees or rupees and annas: a tender in which no rate is thus specified, but a subscription is offered in some other terms—as, for example, at the recorded minimum, or at some specified percentage in addition to the recorded minimum, or at the average of the accepted tenders—will be rejected as null and void.

6. The rate at which a tender is made must not contain a fraction of an anna: if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna.

#### *Deposits.*

7. Each tender must be accompanied by a deposit of not less than one-hundredth or, if the tender be for less than Five Lakhs of Rupees, then for not less than one-fiftieth part of the tender. The deposit must be in one of the following forms: (a) a receipt for the amount from the Head Office of the Bank of Bengal, or Madras, or Bombay, or one of their Branches, or from an officer in charge of some Public Treasury, or (b) a cheque drawn in favour of the Comptroller General on a Bank in Calcutta, Madras, Bombay, Allahabad, Lahore or Rangoon, or (c) Government Promissory Notes<sup>1</sup> standing in the name of, or endorsed to, the tenderer or the person making the deposit.

<sup>1</sup> It is particularly requested that such Promissory Notes may NOT be endorsed to the Comptroller General.

8. (a) Deposits, not being promissory notes, will, in the case of accepted tenders, be credited proportionately in part payment of the allotment-certificates issued in respect of the tender, and will bear interest for the purpose of clause 16 below from the date of the opening of tenders. When a tender is not accepted in full, the deposits, when they are not in the form of promissory notes, will be credited as far as possible proportionately in part payment of the allotment-certificates issued in respect of it. If any allotment-certificate is not fully taken up, the deposit credited in respect of it will be forfeited.

(b) Promissory notes deposited in respect of any accepted tender will be held until all the allotment-certificates issued in respect of the tender are paid up, and will, if the allotment-certificates are not fully taken up, be appropriated by the Government and cancelled.

#### *Opening of Tenders.*

9. The minimum rate at which tenders will be accepted will be recorded under the signature of the Comptroller General, and, before the tenders are opened, placed upon the table in a sealed envelope, but will not be declared unless some tender is rejected only because it is below the recorded minimum.

10. Tenders will be opened publicly by the Comptroller General at the Treasury Buildings, Calcutta, at noon, standard time,\* on Wednesday, the 17th July next, and those received under the terms of note (1) to clause 4 will be similarly opened by the Accountants General at Madras, Bombay, Allahabad,

\* Non-standard time, corresponds to 12-24 P.M., Calcutta Time.

Lahore, and Rangoon, at noon, standard time, on the same day; but the contents of the tenders will not be disclosed otherwise than as provided in clause 12.

11. Tenders at rates not below the minimum rate will be accepted in the order of the rates tendered, beginning with the highest rate. The amount allotted at the lowest rate at which tenders are accepted will be divided amongst those who have tendered at this rate in proportion, as nearly as may be found convenient, to the amounts of their tenders; provided that no allotment will be issued if the amount distributable on any tender is less than Rs. 100; preference will however be given to small tenders, not exceeding Rs. 2,000, at the lowest accepted rate, such tenders receiving allotments in full as far as possible.

#### *Allotment-Certificates.*

12. To each tenderer (or to his agent) whose tender is accepted in whole or in part, such number of allotment-certificates as may be necessary to make up the aggregate amount allotted to him will be issued by the Comptroller General<sup>1</sup> as soon as possible after the 17th July and an alphabetical list of the names of those to whom such allotment-certificates are issued will be posted for general information at the Head Offices of the Banks of Bengal, Madras, and Bombay, and at the Branch Offices of the Bank of Bengal at Allahabad, Lahore, and Rangoon.

<sup>1</sup> For tenders received by the Accountant General at Madras, Bombay, Allahabad, Lahore, or Rangoon, and payable at those places, the Accountant General will issue the allotment-certificates.

13. If the allotment made on any tender is less than Rs. 3,000, then the whole of the allotment-certificates [after credit of the deposit under clause 8 (a)] will be made payable upon the 11th August.

Otherwise the whole amount of each allotment will be divided into three instalments as follows:—

*Instalment I.*—As near as convenient to 35 per cent., but not exceeding 35 per cent., payable upon the 31st July:

*Instalment II.*—As near as convenient to 35 per cent., but not exceeding 35 per cent., payable upon the 11th August:

*Instalment III.*—The balance payable upon the 10th September.

and allotment-certificates will be issued for each instalment separately.

But the whole or any part of any accepted tender may be paid at any time after receipt of the allotment-certificates.

The words “as near as convenient” refer to the necessity for making each instalment an exact multiple of Rs. 100.

14. Any allotment-certificates will, on application to the Comptroller General, be exchanged for an equivalent amount of allotment-certificates of smaller denominations; provided that if any payment (beyond the deposit) is recorded upon the cancelled certificate, it can be taken against, and recorded upon, only one of the certificates issued in exchange.

15. Payment of any allotment-certificate may be made to the account of the Government in the Head Office of the Bank of Bengal, or Madras, or Bombay, or in any Branch of these Banks, or into any Public Treasury or Treasuries in India which may be named in the tender in respect of which it was issued. Receipts for such payments will be given by the Banks of Bengal, Madras, and Bombay, or their Branches, or by the officers in charge of the Government Treasuries at which payment is made, by encasement upon the relative certificate.

#### *Issue of Promissory Notes.*

16. (a) When any allotment-certificate is fully paid up, the holder will, on presenting it duly receipted at the place where it was paid, obtain from the Public Debt Office, Calcutta, promissory notes of such values as he may desire (each note being in even hundreds and not less than Rs. 100) bearing interest from 31st December 1907, and he will also receive interest at 3½ per cent. per annum from the dates on which he may have made payment till the 30th December 1907.

(b) Or he may, at his option, by paying interest at the said rate from 30th June 1907 to the dates on which he may have made payment, obtain promissory notes as above, bearing interest from 30th June 1907.

Loan of 1900-01*, will apply to the notes to be now issued. The interest on the notes of that loan is payable half-yearly on the 30th day of June and the 31st day of December; and the notes are not liable to discharge before the 31st day of December 1920.

#### *Tenders.*

3. Tenders for the whole or any part of the said amount of Rs. 2,50,00,000 will be received by the Comptroller General from this date to noon, standard time,\* of Wednesday, the 17th July, 1907. Tenders must be for sums of 100 Rupees or multiples of that sum.

4. Each tender must be addressed, in the form annexed to this Notification, to the Comptroller General, Calcutta, and enclosed in a closed cover, superscribed "*Tender for the Three-and-a-half Per Cent. Loan.*" If the tenderer is not resident in India, he must name an agent resident in India to whom an allotment-certificate may be issued, if any part of the loan is allotted to such tenderer.

NOTE (1).—Tenders made in accordance with these instructions will also be received by the Accountants General at Madras, Bombay, Allahabad, Lahore, and Rangoon on account of the Comptroller General, Calcutta, on the 16th July, and up to noon, standard time,\* on the 17th July; provided that—

- (a) they are delivered personally or by clerk or messenger at the Accountant General's Office (where a receipt will be given for them);
- (b) they are made on printed forms, to be obtained at the same office or at the local Presidency Bank;
- (c) each tender is for not less than Rs. 10,000;
- (d) the deposit is either a Promissory Note or a Treasury Receipt from the local office of the Presidency Bank, or a cheque on a local Bank in favour of the Accountant General;
- (e) the amount of the tender is made payable at the place of tender (Madras, Bombay, Allahabad, Lahore or Rangoon) as the case may be, or in Calcutta;

and the Accountant General will return deposits on non-accepted tenders and will issue allotment-certificates so far as the tenders are payable in Madras, Bombay, Allahabad, Lahore or Rangoon.

5. The rate at which each tender is made must be specified in rupees or rupees and annas: a tender in which no rate is thus specified, but a subscription is offered in some other terms—as, for example, at the recorded minimum, or at some specified percentage in addition to the recorded minimum, or at the average of the accepted tenders—will be rejected as null and void.

6. The rate at which a tender is made must not contain a fraction of an anna: if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna.

#### *Deposits.*

7. Each tender must be accompanied by a deposit of not less than one-hundredth part of the tender. If the tender be for less than Five Lakhs of Rupees, then for not less than one-fiftieth part of the tender. The deposit must be in one of the following forms: (a) a receipt for the amount from the Head Office of the Bank of Bengal, or Madras, or Bombay, or one of their Branches, or from an officer in charge of some Public Treasury, or (b) a cheque drawn in favour of the Comptroller General on a Bank in Calcutta, Madras, Bombay, Allahabad, Lahore or Rangoon, or (c) Government Promissory Notes<sup>1</sup> standing in the name of, or endorsed to, the tenderer or the person making the deposit.

<sup>1</sup> It is particularly requested that such Promissory Notes may NOT be endorsed to the Comptroller General.

8. (a) Deposits, not being Promissory Notes, will, in the case of accepted tenders be credited proportionately in part payment of the allotment-certificates issued in respect of the tender, and will bear interest for the purpose of clause 16 below from the date of the opening of tenders. When a tender is not accepted in full, the deposits, when they are not in the form of Promissory Notes, will be credited as far as possible proportionately in part payment of the allotment-certificates issued in respect of it. If any allotment-certificate is not fully taken up, the deposit credited in respect of it will be forfeited.

(b) Promissory Notes deposited in respect of any accepted tender will be held until all the allotment-certificates issued in respect of the tender are paid up, and will, if the allotment-certificates are not fully taken up, be appropriated by the Government and cancelled.

\* Noon, standard time, corresponds to 12 24 P.M., Calcutta time.

*Opening of Tenders.*

9. The minimum rate at which tenders will be accepted will be recorded under the signature of the Comptroller General, and, before the tenders are opened, placed upon the table in a sealed envelope, but will not be declared unless some tender is rejected only because it is below the recorded minimum.

10. Tenders will be opened publicly by the Comptroller General at the Treasury Buildings, Calcutta, at noon, standard time,\* on Wednesday, the 17th July next, and those received under the terms of note (1) to clause 4 will be similarly opened by the Accountants General at Madras, Bombay, Allahabad, Lahore, and Rangoon, at noon, standard time, on the same day; but the contents of the tenders will not be disclosed otherwise than as provided in clause 12.

11. Tenders at rates not below the minimum rate will be accepted in the order of the rates tendered, beginning with the highest rate. The amount allotted at the lowest rate at which tenders are accepted will be divided amongst those who have tendered at this rate in proportion, as nearly as may be found convenient, to the amounts of their tenders; provided that no allotment will be issued if the amount distributable on any tender is less than Rs. 100: preference will however be given to small tenders, not exceeding Rs. 2,000, at the lowest accepted rate, such tenders receiving allotments in full as far as possible.

*Allotment-Certificates.*

12. To each tenderer (or to his agent) whose tender is accepted in whole or in part, such number of allotment-certificates as may be necessary to make up the aggregate amount allotted to him will be issued by the Comptroller General<sup>1</sup> as soon as possible after the 17th July and an alphabetical list of the names of those to whom such allotment-certificates are issued will be posted for general information at the Head Offices of the Banks of Bengal, Madras, and Bombay, and at the Branch Offices of the Bank of Bengal at Allahabad, Lahore, and Rangoon.

<sup>1</sup> For tenders received by the Accountant General at Madras, Bombay, Allahabad, Lahore or Rangoon, and payable at those places, the Accountant General will issue the allotment-certificates.

13. If the allotment made on any tender is less than Rs. 3,000, then the whole of the allotment-certificates [after credit of the deposit under clause 8 (a)] will be made payable upon the 14th August.

Otherwise the whole amount of each allotment will be divided into three instalments as follows:

*Instalment I.*—As near as convenient to 35 per cent., but not exceeding 35 per cent., payable upon the 31st July:

*Instalment II.*—As near as convenient to 35 per cent., but not exceeding 35 per cent., payable upon the 14th August:

*Instalment III.*—The balance payable upon the 10th September:  
and allotment-certificates will be issued for each instalment separately.

But the whole or any part of any accepted tender may be paid at any time after receipt of the allotment-certificates.

The words "as near as convenient" refer to the necessity for making each instalment an exact multiple of Rs. 100.

14. Any allotment-certificates will, on application to the Comptroller General, be exchanged for an equivalent amount of allotment-certificates of smaller denominations; provided that if any payment (beyond the deposit) is recorded upon the cancelled certificate, it can be taken against, and recorded upon, only one of the certificates issued in exchange.

15. Payment of any allotment-certificate may be made to the account of the Government in the Head Office of the Bank of Bengal, or Madras, or Bombay, or in any Branch of these Banks, or into any Public Treasury or Treasuries in India which may be named in the tender in respect of which it was issued. Receipts for such payments will be given by the Banks of Bengal, Madras, and Bombay, or their Branches, or by the officers in charge of the Government Treasuries at which payment is made, by encasement upon the relative certificate.

\* Noon, standard time, corresponds to 12-24 P.M., Calcutta time.

*Issue of Promissory Notes.*

16. (a) When any allotment-certificate is fully paid up, the holder will, on presenting it duly receipted at the place where it was paid, obtain from the Public Debt Office, Calcutta, Promissory Notes of such values as he may desire (each note being in even hundreds and not less than Rs. 100) bearing interest from 31st December 1907, and he will also receive interest at  $3\frac{1}{2}$  per cent. per annum from the dates on which he may have made payment till the 30th December 1907.

(b) Or he may, at his option, by paying interest at the said rate from 30th June 1907 to the dates on which he may have made payment, obtain Promissory Notes as above, bearing interest from 30th June 1907.

**Rainfall summary for the seven days ending at 8 h. on Thursday, the 4th July 1907, based on the Indian Daily Weather Reports of the period.**

The Bay monsoon current gave steady rain in Burma and northeast India during the whole of the past week, but with the exception of a few falls in the United Provinces it occasioned no rain west of Bihar. The Arabian Sea monsoon strengthened on the 28th and during the next three days widespread rain due to it occurred in the Peninsula and the Central Provinces, but the current weakened suddenly on the 2nd and from that date to the end of the week its rainfall was restricted almost entirely to the western districts of the Peninsula and to Orissa and Chota Nagpur.

A disturbance appeared in the extreme north of India on the 28th and, in conjunction with easterly winds which at the time were penetrating into the east Punjab, caused light precipitation along the western Himalayas, followed by a rapid fall of temperature in Baluchistan, Kashmir, the Frontier Province and the adjacent districts of the Punjab: this would appear to show that snowfall occurred during this period of disturbed weather in the mountain ranges to the northwest.

*Burma.*—Rainfall occurred in all parts of the province and was general throughout the week in the coast districts. Skies were moderately to thickly clouded and temperature was approximately normal.

*Northeast India and Orissa.*—Rain fell every day in the eastern half of the division and during the last four days occurred also in the western districts. Skies were moderately to heavily clouded and temperature was nearly normal.

*The United Provinces, Central India and the Central Provinces.*—Rainfall was widespread in the Central Provinces on the first four days of the week and a few falls were reported from the United Provinces and Central India. Skies were clear or only lightly clouded in the west of the United Provinces but were moderately to thickly clouded elsewhere. Temperature was normal or in defect in the south and east of the Central Provinces, but during the greater part of the week it was considerably higher than usual in the United Provinces and Central India.

*Northwest India.*—On the first three days of the week light rain was reported from the west Himalayas and the submontane districts: in other parts of the division weather was dry. Skies were lightly to moderately clouded in the extreme north, in Rajputana, Gujarat and Lower Sind and almost clear elsewhere, and temperature was normal or in excess except in Baluchistan and the extreme north where unusually cool weather prevailed from the 30th June to the end of the week.

*The Peninsula.*—Rain was reported daily from the west coast and on most days of the week from parts of the Deccan. Skies were moderately to heavily clouded and temperature was approximately normal except on the 30th June and the first two days of July when weather was cooler than usual in the northeastern districts.

The rainfall of the past week was below the average in deltaic Bengal, North Bihar, Orissa, and on the east coast of the Peninsula, but was normal or in excess in the rest of northeast India and of the Peninsula and in Burma. The 8th and 9th columns of the following table show that the rainfall of the whole period from the 3rd May to the 4th July is either equal to or above the normal in Burma, northeast India (with the exception of the subdivisions of Burdwan and Darbhanga), the North West Dry Area, Baluchistan, the west coast of the Peninsula, the West Satpuras and the sub-divisions of Raipur, Hyderabad, Waltair and Madura: it is in defect elsewhere.

Rain is wanted for nurseries in the Kanbalu sub-division of Shwebo. Standing crops are on the whole in good condition. The price of paddy has risen considerably in Henzada and lightly in four districts; it has fallen slightly in two districts; elsewhere it is unchanged.

**Eastern Bengal and Assam.**—The weather is windy and rainy. The rainfall was general; it was heavy in Chittagong and Noakhali, and slight to moderate elsewhere. More rain is wanted for tea in Cachar. Prospects of the standing crops, though damaged in places to some extent by the recent floods and cyclones, are generally fair to good. Rupees three thousand five hundred and fifty-five were distributed in loans in Mymensingh during the week.

**Bengal.**—Rain was general over the Province, the fall was on the whole light in Behar and Orissa but was heavy in Bankura, Midnapore, Hooghly, Howrah, the 24-Parganas, Darjeeling, Sambalpur, Ranchi, Manbhum, Singhbhum and Cooch Behar. Damage is reported to have been caused by the late cyclonic weather and by excessive rain in Midnapore, the 24-Parganas, Jessore, Gaya and Sambalpur. Sugarcane is doing well. Jute is being weeded. Lands are still being prepared for the transplantation of *aman* paddy in some places. Prospects are at present satisfactory. In Darbhanga the number of persons on gratuitous relief is 12,051; on test works 1,510; and on famine relief works 16,095. Fodder and water are sufficient everywhere. The price of common rice has risen in nine and fallen in four districts.

**United Provinces.**—Rain has fallen in most districts but more is required for sowings. Harvesting of extra crops is nearing completion. Preparation of fields for autumn crops continues, and sowings are in progress in irrigated tracts and elsewhere where moisture is sufficient. Irrigation and weeding of sugarcane are going on. Damage by locusts is reported from Dehra Dun and Almora. Fodder continues dear in Hardoi and Sitapur, and is scarce in Basti and Azamgarh. Supplies are adequate. Prices have risen in thirteen districts.

**Punjab.**—(Report not received.)

**North-West Frontier Province.**—Showers have fallen all over the Province averaging from ¼ to half an inch. The rain has been beneficial to the standing crops and autumn sowings. The standing crops are in good condition. The outturn of spring crops is average to good. Autumn sowings are in progress. There have been heavy floods in the Kurram and Gambila in the Bannu district; the newly opened Kot Hafiz distributary of the Paharpur Canal is flowing to a depth of 2½ feet; there is no irrigation from hill torrents in the Dera Ismail Khan district. The water-supply and fodder are sufficient. Cattle are in good condition. Prices are fluctuating. Prices:—wheat 16½ to 22½; maize 24 to 32½; gram 15½ to 21½; *barja* 18½ to 23 seers per rupee.

Sowings of autumn crops are in rapid progress everywhere but operations have been retarded to some extent owing to insufficient rain in Jubbulpur and Nimar. In Bilaspur heavy rain has impeded sowing and caused slight damage to seeds already sown. Germination of cotton and rice is good in the Wardha, Seoni, Nagpur, Bhandara, Balaghat, Drug, Akola and Amraoti districts. Locusts appeared in parts of Saugor, Betul, Chhindwara, Wardha, Buldana and Yeotmal but did no damage. The water-supply is adequate everywhere except in some villages of the Wun taluq (Yeotmal). Fodder still continues scarce in parts of Nimar, Chhindwara, Nagpur, Chanda and Yeotmal. Prices of food grains remain stationary in ten districts and fluctuate slightly elsewhere; *juar* became dearer by 2½ seers in Buldana. Fodder and water are sufficient. There were no marked variations in prices during the week.

**Bombay.**—There was good rain during the week in parts of Konkan and Poona; moderate in parts of Nasik, Sholapur, the Karnatak and Kathiawar; and slight in parts of the Panch Mahals, Surat, Khandesh, Ahmednagar, Satara, Baroda, Cutch, Mahi Kantha and Rewa Kantha. Drinking water is sufficient, and the supply of water for irrigation is improving except in Sind where it is still low. The quantity of food-grains purchaseable per rupee is in the Karnatak 23 to 45 per cent; in the Deccan 9 to 26 per cent; and elsewhere 8 to 45 per cent less than the normal. During the week ending the 22nd June 1907, 25 persons were relieved gratuitously in Belgaum.

Irrigation supplies are sufficient except in parts of Guntur, the Deccan, the Carnatic, North Arcot, Salem, Madura and South Canara. Ploughing, sowing, weeding and transplanting are in progress. The standing crops are generally fair but some in parts of Kistna have been damaged by recent rains and some in parts of Madura require more rain. Harvests continue with outturn poor to normal. Pasture is sufficient except in parts of the Deccan, Nellore, Madura and South Canara. Fodder is procurable. The condition of cattle is generally good. 2. Promissory Notes will be issued for the said amount in the Form annexed to this Notification, being the form of the notes of *the Three-and-a-half Per Cent. Loan of 1900-01*, of which loan the notes to be now issued will form a part. All the conditions which apply to notes of *the Three-and-a-half Per Cent. Loan of 1900-01*, will apply to the notes to be now issued. The interest on the notes of that loan is payable half-yearly on the 30th day of June and the 31st day of December; and the notes are not liable to discharge before the 31st day of December 1920.

### *Tenders.*

3. Tenders for the whole or any part of the said amount of Rs. 2,50,00,000 will be received by the Comptroller General from this date to noon, standard time,\* of Wednesday, the 17th July, 1907. Tenders must be for sums of 100 Rupees or multiples of that sum.

4. Each tender must be addressed, in the form annexed to this Notification, to the Comptroller General, Calcutta, and enclosed in a closed cover, superscribed "*Tender*"

---

\* Noon, standard time, corresponds to 12-24 P.M., Calcutta time.

*for the Three-and-a-half Per Cent. Loan."* If the tenderer is not resident in India, he must name an agent resident in India to whom an allotment-certificate may be issued, if any part of the loan is allotted to such tenderer.

NOTE (1).—Tenders made in accordance with these instructions will also be received by the Accountants General at Madras, Bombay, Allahabad, Lahore and Rangoon on account of the Comptroller General, Calcutta, on the 16th July, and up to noon, standard time,\* on the 17th July; provided that—

- (a) they are delivered personally or by clerk or messenger at the Accountant General's Office (where a receipt will be given for them);
- (b) they are made on printed forms, to be obtained at the same office or at the local Presidency Bank;
- (c) each tender is for not less than Rs. 10,000;
- (d) the deposit is either a Promissory Note or a Treasury Receipt from the local office of the Presidency Bank, or a cheque on a local Bank in favour of the Accountant General;
- (e) the amount of the tender is made payable at the place of tender (Madras, Bombay, Allahabad, Lahore or Rangoon) as the case may be, or in Calcutta;

and the Accountant General will return deposits on non-accepted tenders and will issue allotment-certificates so far as the tenders are payable in Madras, Bombay, Allahabad, Lahore or Rangoon.

5. The rate at which each tender is made must be specified in rupees or rupees and annas: a tender in which no rate is thus specified, but a subscription is offered in some other terms—as, for example, at the recorded minimum, or at some specified percentage in addition to the recorded minimum, or at the average of the accepted tenders—will be rejected as null and void.

6. The rate at which a tender is made must not contain a fraction of an anna: if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna.

#### *Deposits.*

7. Each tender must be accompanied by a deposit of not less than one-hundredth or, if the tender be for less than Five Lakhs of Rupees, then for not less than one-fiftieth part of the tender. The deposit must be in one of the following forms: (a) a receipt for the amount from the Head Office of the Bank of Bengal, or Madras, or Bombay, or one of their Branches, or from an officer in charge of some Public Treasury, or (b) a cheque drawn in favour of the Comptroller General on a Bank in Calcutta, Madras, Bombay, Allahabad, Lahore or Rangoon, or (c) Government Promissory Notes<sup>1</sup> standing in the name of, or endorsed to, the tenderer or the person making the deposit.

<sup>1</sup> It is particularly requested that such Promissory Notes may NOT be endorsed to the Comptroller General.

8. (a) Deposits, not being Promissory Notes, will, in the case of accepted tenders, be credited proportionately in part payment of the allotment-certificates issued in respect of the tender, and will bear interest for the purpose of clause 16 below from the date of the opening of tenders. When a tender is not accepted in full, the deposits, when they are not in the form of Promissory Notes, will be credited as far as possible proportionately in part payment of the allotment-certificates issued in respect of it. If any allotment-certificate is not fully taken up, the deposit credited in respect of it will be forfeited.

(b) Promissory Notes deposited in respect of any accepted tender will be held until all the allotment-certificates issued in respect of the tender are paid up, and will, if the allotment-certificates are not fully taken up, be appropriated by the Government and cancelled.

#### *Opening of Tenders.*

9. The minimum rate at which tenders will be accepted will be recorded under the signature of the Comptroller General, and, before the tenders are opened, placed upon the table in a sealed envelope, but will not be declared unless some tender is rejected only because it is below the recorded minimum.

10. Tenders will be opened publicly by the Comptroller General at the Treasury Buildings, Calcutta, at noon, standard time,\* on Wednesday, the 17th July next, and those received under the terms of note (i) to clause 4 will be similarly opened by the Accountants General at Madras, Bombay, Allahabad, Lahore, and Rangoon, at noon,

standard time, on the same day ; but the contents of the tenders will not be disclosed otherwise than as provided in clause 12.

11. Tenders at rates not below the minimum rate will be accepted in the order of the rates tendered, beginning with the highest rate. The amount allotted at the lowest rate at which tenders are accepted will be divided amongst those who have tendered at this rate in proportion, as nearly as may be found convenient, to the amounts of their tenders ; provided that no allotment will be issued if the amount distributable on any tender is less than Rs. 100 : preference will however be given to small tenders, not exceeding Rs. 2,000, at the lowest accepted rate, such tenders receiving allotments in full as far as possible.

#### *Allotment-Certificates.*

12. ### POST OFFICE.

#### SAVINGS BANK.

No. 6051—6055—192.

*The 12th July, 1907.*

RESOLUTION—By the Government of India, Department of Commerce and Industry.

The Government of India have had under their consideration the extension to sub-post offices of the system, at present restricted to head post offices, under which investment certificates for Government securities purchased through the agency of the Post Office are granted immediately on the receipt of the sums to be invested. This extension of the existing system was contemplated in the Resolution in this Department No. 1323—1333-181, dated the 1st June 1906.

The success which has attended the introduction of the scheme leads the Government of India to believe that its extension to sub-post offices will be appreciated by the public, and they have therefore decided that, with effect from the 15th September 1907, investment certificates shall be granted immediately in respect of sums tendered for investment at all sub-post offices doing Savings Bank work throughout the country.

2. In order to give effect to this decision, it is notified that, with effect from the same date, the following rule shall be substituted for the rule, bearing the same number, which was published with the Resolution quoted in paragraph 1 above.

### INVESTMENTS.

#### *Purchase of Government Securities.*

46. (1) Any person whether previously a depositor in the Post Office Savings Bank or not, may invest through the Post Office in Government Securities, in one of the  $4\frac{1}{2}$  per cent. loans, specifying in his application either the sum to be invested or the nominal value of the securities to be purchased: provided that the sum to be invested or the nominal value of securities to be purchased shall be in whole rupees, and not less than Rs. 10: provided also that the total amount invested in any one official year from the 1st of April to the 31st of March shall not exceed Rs. 1,000, and that the total amount invested through the Post Office, after deducting any sum sold through the Post Office, shall not exceed Rs. 5,000 in the case of an adult or Rs. 1,000 in the case of a minor.

(2) If the nominal value of securities purchased is *less* than Rs. 100, an investment certificate will be issued. If the nominal value of the securities is Rs. 100, the investor may have either an investment certificate or a whole piece of Government paper for the amount, and if the nominal value of the securities is above Rs. 100, he may have either (i) an investment certificate for the entire amount, or (ii) whole pieces of Government paper of Rs. 100, or any multiple of Rs. 100, and an investment certificate for the remainder, provided that the remainder is not less than Rs. 10.

NOTE.—In the case of all applications for the purchase of Government Securities, a portion of the balance standing at the credit of the depositor's Savings Bank account may be made available, or a special deposit made, for the purpose of providing the amount required.

(3) When whole pieces of Government paper are required, the investor has the option of requesting in his application, that the paper should remain in the custody of the Comptroller, Post Office, or be delivered to him. When paper is to be delivered to the investor, it will be enclosed for payment of interest at the District Treasury and be forwarded to the post office for delivery to the investor. In the case of Government Securities represented by an investment certificate, the securities will remain in the custody of the Comptroller, Post Office, and no paper can be delivered to the investor or enclosed for payment of interest at the Treasury.

(4) Applications for investment certificates and Government Promissory Notes must be made on separate forms of application prescribed by the Director-General of the Post Office. If the applicant is already a depositor in the Post Office Savings Bank, he should present his pass-book with his application; if he is not already a depositor, a pass-book will be prepared and delivered to him.

(5) When an application for an investment certificate is presented at a head or a sub-post office, an investment certificate, signed by the head or sub-postmaster as the case may be, will be handed to the investor *across the counter of the post office*. When the application is presented at a branch post office, an investment certificate will be obtained for the investor from the head office or the sub-office to which the branch office is subordinate. The Comptroller, Post Office, will fix the rate at which Government Securities represented by investment certificates can be purchased. This rate will be communicated to head and sub-postmasters and will remain in force until it is changed by the Comptroller.

(6) Two or more investment certificates may, at any time, be exchanged for a single certificate of their aggregate value. The certificates to be exchanged must be presented at the head post office, entered in the form of application prescribed for the purpose by the Director-General of the Post Office.

(7) Applications for Government Promissory Notes presented at a post office will be forwarded to the Comptroller, Post Office, for consideration, who will take the necessary steps for the purchase. *The interest will be charged at the actual price paid for the Government Promissory Notes.* When the pass-book is presented at the post office, the transactions connected with the investment will be noted therein.

NOTE 1.—The minimum of Rs. 1,000 and the maximum of Rs. 5,000 for securities through the Post Office do not apply to investment in connection with public deposits, with the Post Office, or with joint accounts, or with security deposit accounts.

NOTE 2.—No portion of the balance of an account which is subject to a special order of withdrawal may be withdrawn for the purpose of investment in Government Securities through the Post Office, as prescribed by rule 23 (1).

**ORDER.—ORDERED,** that the Resolution be communicated to the Finance Department, the Comptroller and Auditor-General, the Director-General of the Post Office of India, and the Comptroller, Post Office.

Ordered, also, that the Resolution be published in the *Gazette of India*, for general information.

JAILS.

OFFICERS OF THE INDIAN MEDICAL SERVICE EMPLOYED IN THE JAIL DEPARTMENT ON 1ST APRIL 1904 PERMITTED TO SELECT THE DATE ON WHICH THEY WILL COME UNDER THE NEW SCALE OF CONSOLIDATED PAY.

NOS. 125—137.

*Simla, the 12th July 1907.*

RESOLUTION.

IN paragraph 3 of the Home Department (Jails) resolution nos. 180—192, dated the 28th September 1905, it was announced that the new scale of consolidated pay sanctioned by the Secretary of State for India for officers of the Indian Medical Service employed in the Jail Department should be introduced with effect from the 1st April 1904, that officers already in the department should be permitted to choose between the old and the revised scale, and that when the present pay of an officer choosing the new scale was in excess of that laid down in paragraph 2 of the resolution he might continue to draw the pay which he then received under the old scale, until he became entitled to an increase under the revised scale, by which his emoluments would thereafter be regulated.

2. It has been found in practice that the interests of existing incumbents have not been sufficiently safeguarded by these orders, and that the conditions prescribed have operated very unequally in different cases. The Government of India accordingly addressed the Secretary of State on the subject in March 1907. They have now received his orders and are pleased to notify, in supersession of the previous orders on this point, that any officer who was in the department on the date from which the improved rates of pay came into effect, *i.e.*, the 1st April 1904, will be permitted to select the date, if any, on which he will come under the new scale; that such election may be made at any time, and, when made, shall be final.

3. The Government of India are further pleased to extend this concession to officers who, although not confirmed in the department on or before the 28th September 1905, had already joined it on probation.

\* The Chief Secretary to the Government of Madras.

The Chief Secretary to the Government of Bombay.

The Chief Secretary to the Government of Bengal, with reference to the correspondence ending with the Home Department letter no. 51, dated the 18th March 1907.

**Rainfall summary for the seven days ending at 8 h. on Thursday, the 11th July 1907, based on the Indian Daily Weather Reports of the period.**

Weather was disturbed in the extreme north from the 7th to the 10th, and on the 8th a well defined depression was shown over Dera Ismail Khan; by the next morning it had moved eastward to the foot of the Punjab hills. Numerous duststorms resulted and light local rain fell in Rajputana, the Punjab and Kashmir. Scattered rain occurred at intervals during the week in Gujarat, probably due to the Arabian Sea monsoon current, which also occasioned a few falls of rain in the Peninsula and the Central Provinces, but this branch of the monsoon was feeble throughout the greater part of the week and the rainfall due to it was extremely scanty. At the close of the week however there were signs of a fresh advance; the sea was rising in Malabar and rainfall had recommenced there as well as in the Deccan. The Bay monsoon gave comparatively light and local rain in Burma during the greater part of the week, and steady rain in northeast India, but the distribution of pressure was unfavourable for an extension of rainfall westward into the United Provinces.

*Burma.*—Rain was reported daily but was lighter than usual. Skies were moderately clouded and temperature was normal except on the 6th when it was somewhat in defect in Upper Burma.

*Northeast India and Orissa.*—Rainfall on the first five days of the week occurred chiefly in the eastern half of the division but on the 10th and 11th it was nearly general. Skies were moderately to thickly clouded and temperature was lower than usual in the central districts from the 7th to the 10th and normal elsewhere.

*The United Provinces, Central India and the Central Provinces.*—Rain occurred in parts of the Central Provinces on the 5th and the 11th but only a few scattered falls were reported from other parts of the division. Skies were clear or lightly clouded in the United Provinces and lightly to moderately clouded elsewhere. Temperature was above normal especially in the United Provinces and the east of Central India where weather was much hotter than usual.

*Northwest India.*—Rain fell at a few places in Gujarat and Rajputana, and on the 9th and 10th occurred in parts of the Frontier Province, Kashmir and the Punjab. Skies were cloudy over nearly the whole of northwest India on the 9th and 10th, but on the remaining days of the week cloud was confined chiefly to Gujarat and south Rajputana. Weather was hotter than usual until the 10th when a sudden fall occurred, probably due to rainfall, and temperature was considerably below normal in Baluchistan and the extreme north on the 10th and the 11th.

*The Peninsula.*—With the exception of scattered falls of rain, chiefly in the south, weather was dry up to the 11th when rainfall increased to some extent and was nearly general in the west Deccan and on the southern half of the west coast. Skies were lightly to moderately clouded and temperature was approximately normal.

The rainfall of the past week was below the average over nearly the whole country and was heavier than usual only in the eastern half of northeast India and in the southeast of the Peninsula. For the whole period from the 3rd May to the 11th July rainfall is above normal only in the subdivision of Calcutta, it is practically normal in Burma, the greater part of northeast India, the south of the Peninsula, the west Satpuras and the subdivisions of Hyderabad and Waltair, and is in defect elsewhere.

The following summarises the chief rainfall amounts of the week, as reported at 8 h. each day :

## Season and Crop Prospects for the week ending Saturday, 6th July 1907.

**Burma.**—There has been good general rain in Lower Burma during the week, and ploughing and sowing for the wet weather paddy crop are progressing satisfactorily. No rain fell during the week in Pakokku, Mandalay, Sagaing, Lower Chindwin, Kyaukse and Myingyan, and only very small amounts in Magwe, Shwebo and the Northern Shan States. In Shwebo ploughing, sowing, and transplanting are backward for want of rain and the standing crops are withering; the standing crops in Lower Chindwin are also suffering. In the Yamethin sub-division of the Yamethin district sesamum has been slightly damaged by heavy rain; in other districts prospects are so far satisfactory. The price of paddy has risen considerably in Pyapon and slightly in Thayetmyo; elsewhere it is stationary.

**Eastern Bengal and Assam.**—The weather is seasonable. Rainfall was general; it was heavy in Sylhet, Nowgong, Lakhimpur and the Eastern Bengal districts generally. More rain is wanted in Kamrup. The prospects of the standing crops are generally fair to good. Plucking and manufacture of tea are in progress; prospects are poor in Kamrup and elsewhere fair to good. Ploughing for and transplantation of winter rice and harvesting of early rice are in progress. Harvesting of jute has commenced in places. Potatoes are being gathered in the Khasi Hills and prospects are very good. Prices of common rice:—Manipur 11; Kohima 9; Comilla  $8\frac{3}{4}$ ; Sibsagar 8; Faridpur  $7\frac{3}{4}$ ; Dacca, Sylhet, Dhubri and Dibrugarh  $7\frac{1}{2}$ ; Silchar 7 to  $7\frac{1}{2}$ ; Mymensingh  $7\frac{1}{2}$ ; Dinajpur  $7\frac{3}{4}$ ; Barisal, Rangamati, Jalpaiguri, Bogra, Gauhati, Tezpur and Nowgong 7; Tura 6 to 7; Rampur Boalia  $6\frac{3}{4}$ ; Pabna  $6\frac{1}{4}$ ; Noakhali and Rangpur  $6\frac{1}{2}$ ; Malda and Shillong  $6\frac{1}{2}$ ; and Aijal 5 seers per rupee. Prices have risen in two; fallen in five; and remained stationary in the remaining districts. One hundred and fifty-seven persons received gratuitous relief in Sylhet.

**Bengal.**—Rain was general throughout the Province; the fall was heavy in Howrah, Khulna, Gya, Purnea, Darjeeling, Sambalpur and Cooch Behar; and moderate to heavy in Midnapore, Jessore, Champaran, Muzaffarpur, Monghyr, Bhagalpur and Hazaribagh. The recent excessive rainfall has done some damage to jute in Hooghly, Howrah, the 24 Parganas and Jessore; to maize and *marua* (millet) in Bhagalpur; and to paddy in Sambalpur where resowings have been found necessary in many places. Sugarcane is doing well. Weeding of jute and transplantation of paddy are in progress. Prospects are on the whole satisfactory. In Darbhanga the number of persons on gratuitous relief is 11,576; on test works 1,080; and on famine relief works 8,319. Fodder and water are sufficient. The price of common rice has risen in seven and fallen in four districts.

**United Provinces.**—Light rain has fallen in all but eight districts. More rain is urgently required for sowings which are being retarded for want of moisture. Weeding and irrigation are in progress, and the ploughing of fields for autumn crops is going on. Sowings continue in irrigated tracts. Damage by locusts is reported in Garhwal, and the sugarcane crop is suffering from drought in Moradabad. Fodder is dear in Farrukhabad and Sultanpur and scarce in Hardoi, Kheri and Basti. Markets are well stocked but prices are rising.

**Punjab.**—Light to moderate rain has fallen in Gurgaon, Ambala, Sialkot, Rawalpindi and Mianwali. The prices of food-grains are generally rising in Hissar, Jullundur, Ferozepore, Rawalpindi and Lyallpur. Threshing of spring crops is nearly finished; ploughings for and sowings of cotton, sugarcane and other autumn crops continue; cotton, sugarcane and extra spring crops are being weeded in Jullundur and Sialkot; cutting of tobacco is in progress in parts of Sialkot. The outturn of spring crops is average to poor. The condition of the extra spring crops is good to average; cotton and sugarcane crops are only average for want of rain in Ferozepore; rain is also wanted in Hissar, Delhi, Ambala, Jullundur and Ferozepore. Locusts appeared in Lyallpur and Multan and damaged the autumn crops slightly in the latter district; melons have been spoilt by insects, and cotton and fodder crops by locusts in parts of Amritsar; crops in parts of Mianwali have been eaten up by hoppers. The condition of cattle is generally good. Fodder is sufficient, but green fodder is not available in Ferozepore. The water-supply is insufficient in parts of Ambala.

**North-West Frontier Province.**—Showers have fallen in Bannu and Dera Ismail Khan. The standing crops are in good condition. Autumn sowings are in progress but more rain is wanted. There is no irrigation from hill torrents in Dera Ismail Khan.

The water-supply and fodder are sufficient. Cattle are in good condition. Prices are fluctuating but are still easy. Prices :—wheat 16 $\frac{3}{4}$  to 22; gram 15 $\frac{7}{8}$  to 21 $\frac{1}{2}$ ; maize 24 $\frac{1}{2}$  to 33 $\frac{1}{2}$ ; *bajra* 18 $\frac{1}{2}$  to 22 $\frac{1}{2}$  seers per rupee.

**Jammu.**—Slight rain. Prices are fluctuating. Prices :—wheat 10 to 23 and maize 15 to 36 seers per rupee. The condition of the standing crops is fair. Fodder is sufficient. Land is being prepared for autumn sowings.

**Kashmir.**—The weather was bright except on the last two days of the week when it was rainy. Prices are almost stationary.

**Rajputana.**—Showers fell in many places, the maximum fall was one inch and 53 cents in five districts of Kotah. More rain is wanted throughout Rajputana. Land is being prepared for autumn crops and sowings have commenced in places. Cattle are in good condition except in some places in Mewar. Pasturage and fodder are sufficient. Prices are rising in Marwar, Mewar, Partabgarh, Bharatpur and Ajmer-Merwara; and are nearly steady elsewhere.

**Central India**—Rain was general in parts of Indore; none in Bundelkhand; and partial elsewhere. Preparation of land for autumn sowings is in progress, and sowings have commenced in parts of Indore, Bhopal and Bhopawar. Agricultural stock and pasturage are fair to good except in parts of Indore, Malwa and Bhopawar. The absence of rain is spoiling the standing crops in Manpur. Prices are steady in Indore and in parts of Malwa; are high in Bhopal and Baghelkhand; and are rising elsewhere.

**Central Provinces.**—Light to moderately heavy rain was received during the week in the major portion of the Nagpur country, Balaghat had 5 $\frac{1}{2}$  inches but Chanda only 16 cents; little or no rain fell in the Nerbudda valley districts and seedlings in Hoshangabad require more moisture. Rain is much needed in Jabulpore and Nimar where sowings are delayed and in the Vindhyan and Satpura districts. In Berar, Yeotmal received 4 $\frac{1}{4}$  inches and there were light falls elsewhere; in Chhattisgarh the rainfall was slight but there is no immediate necessity for more; on the whole, however, in tracts where rainfall has been late and scanty prospects are not very favourable. Sowings of autumn crops are in progress but are retarded in places for want of sufficient rain. Cotton sowings are almost finished in the Wardha and Hingnath tehsils; germination is indifferent and about one-fourth of the sowings in the Wardha tehsil have been damaged through lack of rain necessitating resowing; in the Burhanpur tehsil (Nimar) cotton sown last week germinated but is now withering; in Chanda germination of all crops is good but more rain is required for rice; in Balaghat and in the districts of Chhattisgarh and Berar germination of crops is reported good. Locusts appeared in parts of Nimar, Wardha and Buldana but did no damage. Prospects are not at present very favourable. Fodder and water are sufficient everywhere though fodder is still scarce in parts of Nagpur and Yeotmal. Prices of food grains remain stationary in ten districts and fluctuate slightly elsewhere exhibiting a tendency to rise; rice became dearer by 2 seers in Soni and *juar* by 3 $\frac{1}{2}$  seers in Chhindwara; prices of staple food-grains are slightly dearer than those ruling last year, and continue equal to or above the scarcity rate in Bilaspur, Drug, Buldana, Yeotmal, Bhandara, Wardha, Chanda and Balaghat.

**Native States.**—Rainfall measured (in inches) was :—Kankar 6 $\frac{1}{2}$ ; Kawardha 3; Rajnandgaon 2 $\frac{1}{2}$ ; Sakti 2; Bastar, Raigarh, Udaipur each 1 $\frac{3}{4}$ ; and Sarangarh  $\frac{1}{2}$ . Sowings of autumn crops are in rapid progress everywhere and germination is good in Raigarh and Rajnandgaon. Heavy rain has damaged early sown rice in Raigarh and Sarangarh necessitating resowing. Fodder and water are adequate. Prices are steady.

**Bombay.**—There was good rain during the week in parts of the Konkan; moderate in parts of the Panch Mahals, Kaira, East Khandesh, Nasik, Ahmednagar, Poona, Sholapur, Bijapur, Belgaum, Kathiawar and Rewa Kantha; and slight in parts of Ahmedabad, Broach, Surat, West Khandesh, Satara, Dharwar, Baroda, Cutch and Mahi Kantha. More rain is generally needed for autumn sowings which are retarded in parts of Sind, Gujarat, the Deccan and the Karnatak. Sowing continues elsewhere and transplantation has commenced in parts of Larkana and the Konkan. Seedlings are in good condition except in parts of Karachi, Sukkur, Ahmedabad, the Panch Mahals, Broach, Surat, West Khandesh, Belgaum and Baroda. The fodder-supply is adequate. Agricultural stock is generally in good condition. Drinking water is sufficient, and the supply of water for irrigation is improving except in Sind where it is still low. The quantity of food-grains purchasable per rupee is in the Karnatak 23 to 43 per cent.; in the Deccan 9 to 29 per cent.; and elsewhere 12 to 45 per cent. less than the normal. During week ending 29th June 25 persons were relieved gratuitously in Belgaum.

**Hyderabad.**—Rainfall 2 inches 35 cents. The rainfall was general. Prospects are good. Autumn sowings continue and more lands are being prepared. Early rice sowings continue. Prices :—wheat 7 $\frac{1}{4}$ ; coarse rice 7 $\frac{1}{4}$ ; and *juar* 14 $\frac{3}{4}$  seers per rupee.

**Mysore.**—Good rain in Hassan, Kadur, Shimoga, and Chitaldroog and slight rain elsewhere. Prices of food-grains are steady. The standing crops are in good condition, but

more rain is required in parts of Tumkur, Mysore and Hassan. The prospects of the season are good. Cattle are healthy, and water and fodder are available.

**Coorg.**—Rainfall 1 inch 87 cents. Sowing of rice continues. Prices of food-grains are normal. Water and fodder are sufficient.

**Madras.**—The rainfall was very heavy in South Canara and Malabar; good in the Vizagapatam Agency, the Nilgiris, Ganjam and Godavari; and light to fair elsewhere. Irrigation supplies are sufficient except in parts of the Deccan, the Carnatic, North Arcot, Salem, and Madura. Ploughing, sowing, weeding and transplanting are in progress in parts. The standing crops are generally fair but paddy in parts of Nellore is withering and some crops in parts of Madura require more rain. Harvests are proceeding except in Vizagapatam, Kistna, Guntur, Kurnool, Bellary, Trichinopoly, Tanjore, Malabar and South Canara, the outturn being poor to normal. Pasture is sufficient except in parts of the Deccan, Nellore, Madura and South Canara. Fodder is procurable. The condition of cattle is generally good. The price of rice is stationary in three districts; has fallen in three; and has slightly risen in nine. The prices of millets have fluctuated as follows:—*Ragi* is stationary in eight districts; has fallen in five; and has slightly risen in eight. *Cholum* is stationary in two districts; has fallen in four; and has slightly risen in eight. *Cumbu* is stationary in five districts; has fallen in five; and has slightly risen in five.

The number of persons in receipt of relief during the preceding and present weeks in each province is shown in the following table:

## RESOLUTION.

IN this Resolution the Government of India propose to examine the ground covered by Chapter XIII of the Excise Committee's Report. In that Chapter the Committee have expressed their views regarding the staff necessary for the control and administration of Excise, as well as for the duties of inspection and prevention. The importance of this branch of the subject cannot easily be exaggerated. As the Committee justly observe, "the essence of good Excise administration is a well paid and properly recruited preventive staff, incessant inspection both by it and by active controlling officers, the maintenance of the Collector's authority assisted by the special department, and an adequate provision for technical work and for training of technical officers."

A separate communication will be addressed to the Governments of Madras, the United Provinces, the Punjab, and the Chief Commissioner of the Central Provinces, on the subject of the improvement of their Excise establishments; and it is not proposed, in the present Resolution, to refer again to those questions of establishment and prevention which have already been dealt with in preceding Resolutions. The following remarks, however, express the conclusions of the Government of India upon the matters of wider and more general importance which fell within the scope of the Committee's enquiry.

2. The first question for consideration is the proper status of the head of the Excise Department in each province. The Committee advise that the Excise Commissioner should be brought into immediate relations with the Local Government, either as a Member of the Board of Revenue, as is now the case in Madras, or by serving directly under Government, as happens, owing to the absence of a Board of Revenue, in Bombay. They suggest that the former system might be followed in Bengal and Eastern Bengal and Assam, by making one of the Members of the Board Excise Commissioner, and the latter in the United Provinces and the Punjab, by removing the Excise Commissioner from his subordination to the Board of Revenue and the Financial Commissioner respectively. The Government of India are unable to accept these suggestions in their entirety. They fully recognise the advantages of the arrangement in Madras and Bombay, where the Excise Commissioner and the Chief Revenue Authority are one and the same functionary, who works directly under the Local Government. But they consider that where, as in

Northern India, these two functions are separated, it would be incongruous to remove from the control of the Chief Revenue Authority the second largest of our great Revenue departments. The Board of Revenue and the Financial Commissioner are not mere channels of communication between the Excise Commissioner and the Local Government. They intercept and dispose of many references with which the Local Government would otherwise have to deal, and they assist the latter in disposing of those references which have to be submitted to it; they are, moreover, peripatetic and inspecting agencies, whereas the Secretariat is not. The Government of India, therefore, have no objection to the adoption by any Local Government of the first alternative suggested by the Committee, *viz.*, that a Member of the Board of Revenue, or the Financial Commissioner, as the case may be, should be constituted Excise Commissioner, with the assistance of one or two superior inspecting officers. They do not, however, approve of the second alternative, and are clearly of opinion that where the Excise Commissioner and the Chief Revenue authority are separate functionaries, the former should be subordinate to the latter and not directly to the Local Government. If any Local Government should desire to introduce such a system, the necessity for it would require to be very fully explained.

3. Where the Excise Commissioner is not also the Chief Revenue Authority, it is clearly desirable, as the Committee recommend, that he should in all cases be a comparatively senior officer, who should have the power of issuing orders both to Collectors and to the special staff; and also that a reasonable continuity in the office should be secured. To ensure this latter object, the Government of India would be glad to see it laid down as a general rule that no one should be appointed Excise Commissioner unless he is prepared to hold the office for three years without taking ordinary furlough during that period. There need be no objection to his taking privilege leave or leave on urgent private affairs; and sick leave must, of course, as the Committee recognise, be granted if necessary.

4. The second of the general questions which the Committee have examined is the position of the Land Revenue authorities in relation to the Department of Excise. The existing conditions of Excise, as well as the prospects of its further development, require a considerable measure of departmental specialization in the larger provinces. But the Government of India unhesitatingly accept the view that, however he may be recruited, the district head of the department should be under the control of the Collector, occupying in respect to him the same position as the Superintendent of Police does in police work. They consider that his tenure should be continuous, so far as possible; and for this and other reasons they do not regard it as desirable (differing on this point from the Committee) that junior Civilians should be trained in Excise work by occasional appointment to the control of the district Excise. The more suitable method of instructing these officers would be by the delegation to them of local control as sub-divisional officers.

The Government of India approve (1) of the view that Commissioners of divisions should have no direct concern with Excise, though they should be consulted on questions of policy both by Collectors and by superior authority, and (2) of the rule in force in the United Provinces, under which cantonment magistrates may, with the permission of the Commanding Officer, be placed in charge of the Excise revenue under the Collector's superintendence, thus occupying the same position in the cantonment as the officer in charge of Excise does in the rest of the district.

5. The third important question concerning the Excise staff relates to the preventive establishments. The Government of India have already explained their view that proper preventive arrangements are essential to the success of the policy of adequate control of shops for the sale of fermented liquors, abolition of outstill areas, concentration of manufacture of country liquor, and introduction of the tree-tax system of taxing *tari* wherever this may be decided upon. In the Chapter now under consideration, the Committee discuss in detail the strength of the preventive establishments in the various provinces and the reforms which are

necessary. Their conclusions have the complete concurrence of the Government of India, and are, as already noted, being separately commended to the attention of Local Governments. Broadly speaking, it is essential to the proper administration of Excise that officers who have to discharge responsible functions should be adequately paid; that those of the type of Sub-Inspectors should only be employed under adequate control; and that peons and petty officers should be given no independent detective duties, but should be employed under direction for purposes of watch and ward and for similar unimportant services, while their numbers should be strictly limited to what is required for the performance of such duties.

6. The proper relations between the preventive staff and the police are described by the Committee (paragraphs 278 and 280 of the Report) in terms which the Government of India entirely accept. The special preventive force should be responsible for the inspection of shops and prevention of Excise offences and it should be sufficiently strong to undertake these duties; while the police should co-operate in detection, be liberally rewarded for so doing, and be expected to provide a force when large seizures are in prospect. Prosecution for Excise offences should be instituted directly by Excise officers and without the intervention of the police, though, as the Committee recognize, the practice in most provinces for some time to come will be for both Police and Excise officers to institute such prosecutions. In making these recommendations, the Committee suggest that Excise officers should simply have the power of officers in charge of police stations, *i.e.*, that they should be compelled to send up cases for prosecution provided that there is evidence or reasonable suspicion to justify the forwarding of the accused to a magistrate. The Government of India, however, would be glad to see Excise officers vested, under proper safeguards, with a wider discretion. They have already expressed the opinion that before the

Paragraph 9 of Resolution No. 2996-Exc., dated the 16th May 1907.

tree-tax system is introduced in provinces where it is not now in force, the superior staff should have full discretion to release persons brought before them on failure of adequate proof, or with a warning in the case of ignorant and petty offenders against the repetition of the offence. They invite Local Governments to consider whether similar discretionary powers might not usefully be entrusted to the superior staff in respect to other Excise matters also, with a view to reducing the number of prosecutions for petty and unimportant offences.

7. The propriety of amalgamating Excise with other Departments, a question which has frequently been under the Government of India's consideration, has been fully discussed by the Committee, who advise—

- (1) That the staffs employed on the Excise of liquor, opium and hemp drugs should be amalgamated everywhere.
- (2) That the amalgamation of the Excise staff with other cognate departments, such as Salt, is also desirable, since a larger cadre facilitates recruiting and ensures a fair flow of promotion, while a periodical change of occupation for Excise officers is very necessary.
- (3) That the recruitment of Excise officers from the Land Revenue or other unallied departments is not expedient, since "in any arrangement under which one department depends for recruitment upon another, the less popular is liable either to become a dumping ground for incompetents or to be officered by a succession of capable but inexperienced men who leave the department just as they have learnt their work and become useful."

These recommendations are generally suitable. The Government of India consider it expedient and desirable that the Salt and Excise Departments belonging to the same Local Government should be amalgamated, as has long been the case in Madras, as has recently been accepted for Sind, as has been proposed to the Local Government in respect of Bombay proper, and as, it is understood, is under consideration in Bengal. They do not, however, consider that any amalgamation should be attempted between the provincial Excise staff and the

Northern India Salt Department, or that the preventive work now done by that Department in the United Provinces and the Punjab should be handed over to provincial Excise establishments, which do not at present exist there on a thoroughly efficient footing.

\* 8. The Government of India have reserved for separate consideration the remarks of the Committee regarding the appointment of an expert officer to assist in the co-ordination of Excise work in the different provinces. They commend for general acceptance the Committee's concluding suggestions (paragraphs 298 and 299 of the Report) for the prevention of smuggling from Native States and for the check of illicit practices in British India.

Ordered that a copy of the foregoing Resolution be communicated, in continuation of Resolution No. 2997-Exc., dated the 16th May 1907, to all Local Governments and Administrations, with the request that they will report, as soon as possible, the extent to which they will be prepared to adopt the recommendations of the Committee in so far as they have been approved by the Government of India; to the <sup>Home</sup> Foreign Department with reference to <sup>paragraphs 4 and 6</sup> paragraph 8; <sup>Army</sup> paragraph 4; and also to Major C. Section 18.
2. *Proceedings of Superintending Canal Officers on reference.*—The Superintending Canal Officer, before confirming or modifying a decision passed by the Divisional Canal Officer under Section 20, shall hear and record any objections made to such decision by the parties interested, or their representatives, to whom at least fifteen days' notice of the date and of the place at which Superintending Canal Officer will consider the Divisional Canal Officer's decision, shall be given.

Section 24.
4. *Opening of new water-courses.*—Water shall not be admitted into any new water-course until all works necessary for the passage across such water-course, or water-courses existing previous to its construction, and of the drainage intercepted by it, and for affording proper communications across it, for the convenience of the neighbouring lands, are completed to the satisfaction of the Divisional Canal Officer.  
Section 29.
5. *Applications for water.*—All applications for water or for the construction or improvement of water-courses under Part III of the Act shall be in the form prescribed in Appendix No. I.

**PART IV.**

**On the Supply of Water.**

6. *Limit of length of water-courses.*—Water shall not ordinarily be granted to lands where the length of the water-course from its head to its point of contact with the fields exceeds two miles.  
Section 31.
7. *Apprehended wastage.*—Applications under Section 16 of the said Act shall not be granted where, in the opinion of the Divisional Canal Officer, loss from wastage is likely to occur. From his decision an appeal may be preferred to the Superintending Canal Officer.

8. *Sanitary reasons.*—The Divisional Canal Officer shall not engage to grant water for the irrigation of any kharif crops upon lands within one mile from the outermost houses of any town if such irrigation be objected to by the Municipal Committee (or, if there be no Municipal Committee, by the Deputy Commissioner), and the objection is approved by the Superin-

tending Canal Officer and the Revenue Commissioner. Should these officers differ in opinion, the question will be referred to the Local Administration, in the Irrigation Department, whose decision shall be final.

8A. *Prohibition of irrigation in the vicinity of cantonments.*—When the Local Administration has, by a notification in the official Gazette, declared that the irrigation of certain crops within

Section 31.

a specified distance from the boundary of a cantonment ought not, on sanitary grounds, to be permitted, no engagement for a supply of water shall be made against the terms of such prohibition.

8B. Every supply of water shall be deemed to be given subject to the condition that the water shall not be used for the cultivation of any particular kind of crop in any particular locality in which the use of canal water for that kind of crop has been prohibited by the Local Administration on sanitary grounds by a notification in the official Gazette. When, however, the right to impose this prohibition is exercised in regard to existing cultivation, the occupiers shall be entitled to such compensation, if any, as the Local Administration may think just.

9. *Preparation of fields.*—A Divisional Canal Officer may withhold or postpone the issue of water to any cultivator whose fields he may have

Section 31.

ascertained by personal inspection (by himself, one of his Assistants, or the Canal Deputy Collector) to be unprepared for irrigation by division into *kharis* or compartments, not greater in area than half a *kanal*, and by the addition of small water channels, as is customary in irrigation from wells.

(a) When a field is irrigated which has not been so prepared, an additional charge may be imposed not exceeding half the amount of occupier's rate leviable upon the field.

(b) Rice fields and gardens are exempted from the operation of this rule.

(c) In each case the Divisional Canal Officer, the Sub-Divisional Canal Officer, or Canal Deputy Collector must certify that he personally examined the field and that it was not properly prepared for irrigation according to the terms of the rule.

(d) An appeal against the orders of the Divisional Canal Officer may be preferred to the Superintending Canal Officer.

10. *Filling of tanks for watering cattle.*—Tanks may, subject to the following provisions, be filled with canal water without charge and

Section 31.

without reference to the area irrigated in any village, whenever water can be made available without injury to the cultivation dependent on any canal:—

I.—Except as provided in Rules 12 and 12A, no tank shall be so filled unless exclusively used for domestic purposes, for watering cattle, or for the manufacture of bricks not subsequently burnt in a kiln, or for *pisè* wall building.

II.—The Lambardars of a village, in which there are one or more tanks for which a supply of canal water is desired, shall submit an application to that effect to the Divisional or Sub-Divisional Canal Officer, in which the number, names and approximate general dimensions of the tanks for which water is desired shall be stated. The Sub-Divisional Canal Officer, on receipt of the application, and after any further enquiries that he may deem necessary, shall pass an order stating the number and names of the tank to which canal water may be supplied whenever it can be made available without injury to the cultivation dependent on the canal, and subject to the following provisions. A written license in the terms of this order shall be given to the applicant, and shall remain in force until revoked by a written order of the Divisional Canal Officer.

III.—Tanks shall be filled at such times as may be directed by the Divisional or Sub-Divisional Canal Officer either by a general or by a special order. If it is desired to fill a tank at any other time, a written application shall be made to that effect. The filling of tanks shall be permitted only at such times and to such extent as the Divisional or Sub-Divisional Canal Officer may approve.

IV.—No tank shall be so filled which by intercepting any line of drainage is liable to overflow from an accumulation of water derived from natural sources.

V.—No tank shall be so filled when the water-course used to fill it is, in the opinion of the Sub-Divisional Canal Officer, in an unsound or unfit condition to carry the supply.

VI.—The privilege afforded by clause II of this rule may, in addition to any penalty which may be incurred under the Act, be suspended for twelve months for breach of any of the foregoing provisions under a written order of the Divisional Canal Officer passed on a regular proceeding and enquiry in each case.

**VII.—In cases in which tanks have been filled without the license prescribed in clause II, or during the suspension under clause VI of the privilege afforded by such license, or in which tanks for which licenses have been granted have been filled at times other than those prescribed by the Divisional or Sub-Divisional Canal Officer under clause III, the water so admitted into such tanks may be charged for at such rate, not exceeding the rate for the time being in force for water supplied in bulk as the Divisional Canal Officer may in each case direct.**

**11. Contracts.**—The Divisional Canal Officer, with the previous sanction of the Superintending Canal Officer, is empowered to make contracts for the supply of canal-water for purposes other than irrigation, not specified in schedule of rates, for any term not exceeding one year. For terms exceeding one year the previous sanction of the Local Administration shall be necessary.

**12. Charges for water used for purposes other than irrigation.**—Tanks may be filled with canal water for purposes other than those stated in clause I of Rule 10; such water will be charged for at rates and subject to conditions to be determined by the Local Administration in each case.

**12 A.** Irrigation may also be carried on from tanks, provided the previous sanction of the Sub-Divisional Canal Officer be obtained. The usual rates will be charged for such irrigation.

**13. Water supplied to cantonments, towns, etc.**—When water is supplied to forts or other military buildings, cantonments, civil stations, cities, towns, railways, public gardens, or other places of public resort, either by filling of tanks or by direct flow, contracts at special rates may be accepted by the Divisional Canal Officer with the previous sanction of the Local Administration.

**14. Water power.**—The use of water power may be granted by the Divisional Canal Officer at such rates and under such conditions as may be sanctioned by the Local Administration in each case

**15. Tâtils.**—Divisional Canal Officers are empowered, for purposes of administration, repairs and maintenance, to order the closure of any water-course for periods which shall not extend beyond twelve consecutive days. For longer closures the authority of the Superintending Canal Officer is required.

Section 32 (a).

Section 32 (a).

**16. Orders for closures under Rule 15 must be notified either—**

(a) by a notification,

(b) by a special order.

Such notification or order shall be in writing under the hand of the Divisional Canal Officer, and a copy shall be conveyed by the Canal establishment with due expedition to each village concerned, and delivered to the Patwari, or, in his absence, to any Lambardâr. The receipt of each person to whom a copy of the notification or order is delivered shall be affixed to a schedule prepared for the purpose, which shall be recorded in the Divisional Canal Office.

It shall be the duty of the Patwari or Lambardâr who receives the notification or order above described to affix it at once in a conspicuous position in the village and to make its purport generally known.

**17. Stoppage of supply in improperly maintained water-courses.**—Stoppages of supply of water to any water-course under Section 32 (a) (2) may be enforced when the Canal Officer ordering the stoppage has satisfied himself, by personal inspection, that the water-course is not maintained in proper repair. The order for such stoppage shall be in writing under the hand of the Divisional Canal Officer, and an immediate report shall be made to the Deputy Commissioner, and the special grounds for stoppage explained.

Section 32 (a).

**18. Report of closures.**—Immediate report shall be made to Superintending Canal Officer of all closures under case (1), Section 32 (a).

Section 32 (a).

**19.** Nothing in the foregoing rules shall be taken to affect the power of a Canal Officer to close any water-course or stop any supply of water on his own authority in cases which he deems to be of pressing emergency.

**20. Claims for remissions.**—All claims for remission of occupiers' rate under Section 32 (b) shall be made to the Divisional Canal Officer previous to the cutting of the crop. The Divisional Canal Officer may reject or admit any claim. If the claim be admitted, the Divisional Canal Officer may remit to the limit of fifty rupees in each individual case, provided that the aggregate remissions for any one village do not exceed two hundred rupees. If the Divisional Canal Officer considers that higher remissions should be granted than those above specified, the sanction of the Superintending Canal Officer must be obtained. Pending the decision, the collection shall be suspended.

Section 32 (b).

Claims to the remission of ordinary charges, other than occupiers' rates, payable for the use of the canal-water, shall only be admitted on proof of actual loss caused by the stoppage of supply ; on proof of such loss, the whole, or any portion of the charges, may be remitted as hereinbefore provided.

## PART V.

### Of Water-Rates.

20A. The rules under this part do not apply to the *haqdar* areas of the following villages irrigating from Kabul River Canal :—

In the Peshawar Tahsil—

Kafir Dheri ; Sara Sang ; Shahi Bala ; Shahi Payan ; Painam Dheri Bala ; Painam Dheri Payan ; Mahal Gabri and Lala.

In the Nowshera Tahsil—

Ali Beg ; Kasim ; Kandi ; Taza Din ; Taru ; Tarnab ; Jabba Khalsa ; and Misri Pura.

20B. *Who to be deemed "occupiers."*—

I. For the purposes of Section 36 of the said Act, the following persons shall be deemed to be "occupiers," namely :—

- (a) Where the land-owner is in actual cultivating occupancy, such land-owner :
- (b) Where the land is in the actual cultivating occupancy of a tenant or sub-tenant and the rent is not paid through a contractor, the landlord and such tenant, or sub-tenant :
- (c) Where the land is in the actual cultivating occupancy of a tenant or sub-tenant, but the rent is paid through a contractor, the landlord, the contractor, and such tenant or sub-tenant :
- (d) Where the land is in the actual cultivating occupancy of a mortgagee holding from a landlord, tenant or sub-tenant, such mortgagee and the mortgagor.

II. In the cases referred to in clauses (b), (c) and (d) of clause I—

- (a) the landlord, and the tenant or sub-tenant, or
- (b) the landlord, the contractor and the tenant or sub-tenant, or
- (c) the mortgagee and mortgagor,

as the case may be, shall be jointly and severally liable for the payment of the occupiers' rate.

III. The expressions "land-owner," "landlord" and "tenant" in this rule shall have the meanings respectively assigned to them in the Punjab Land Revenue Act, 1887 (XVII of 1887), and the Punjab Tenancy Act, 1887 (XVI of 1887).

21. *Charges for the use of water.*—The charge for the use of water shall be made on the area irrigated at the rates specified in the schedules, for the time being in force, and subject to the following rules :—

Section 36.

22. \* \* \* \* \*

22A.—

(1) When a field receives the first or preliminary watering, and afterwards a crop is sown, there shall, subject to the provisions of paragraph (2) of this rule, be payable in respect of that watering the full rate specified in the appropriate schedule as the rate to be charged for canal water supplied for the irrigation of the crop.

(2) When provision is made in the schedule for a special rate being charged for a single watering followed by a crop on land irrigated from a channel to which the Local Administration has declared the special rate to be applicable, the rate to be charged for the watering shall be such special rate, and not the full rate which would otherwise be payable under paragraph (1) of this rule.

23 to 25. \* \* \* \* \*

26. *Occupiers' rate for fields partly irrigated.*—If only a portion of a field be irrigated, the occupiers' rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated by a ridge not less than half a foot high.

27. *Charge leviable on fields partly irrigated from canals, partly from wells or other sources.*—Where a portion of a field has been irrigated with canal water, and a portion with water from a well or any other source, the whole field will be treated as irrigated with canal-water, unless a clearly distinguishable boundary demarcated by a ridge not less than half a foot

high exists between the two portions. Where such a boundary exists enquiry will be made whether the use of water from a well or any other source was owing to deficiency in the supply of canal-water, in which case the canal charge on the portion irrigated by canal water should be reduced to lift rates.

**28. Use of canal water-courses for conveyance of water from a well or any other source—**

Section 36.

If water from a well or any other source is conveyed in the same channel as canal-water in the course of the same season, the whole of the irrigation from that channel during such season is liable to be treated as irrigation from the canal.

**29. Charge leviable for permanent irrigation from escapes.—**

Section 36.

Irrigation from escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

**30. Charge leviable for intermittent irrigation from escapes.—**

Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Local Administration in each case.

**31. When a natural drainage channel or reservoir, not being part of the canal is used as an escape channel, if it is so used at the request of persons desirous of irrigating from it, the same rates shall be chargeable for irrigation from it as for irrigation from an escape channel. Provided that the area, if any, irrigated from it previous to the introduction of canal-water shall not be liable to water-rate, the amount of such area shall be determined by the Deputy Commissioner. In all cases in which water is supplied under this rule, a written contract shall be executed, setting forth the terms on which it is supplied.**

**32. Charge leviable for water used without permission or at times prohibited (i. e. during tatils) by proper authority.—**

Persons irrigating from a canal without permission, or taking water at times prohibited by proper authority, shall, in addition to the ordinary, crop rate which would be leviable, be chargeable with a punitive rate equal to the above ordinary charge for each separate and distinct occasion on which water is used without permission, or at times prohibited by proper authority.

The area shall be measured, and notice shall at once be given on each such occasion to the persons so irrigating that they will be so charged in the demand statement under this rule for the area thus watered.

**33. Charge leviable for water used in an unauthorised manner or suffered to run to waste.—**

The charges leviable for water used in an unauthorized manner, or suffered to run to waste, shall be—

- (1) On cultivated lands, the crop rate which would otherwise be leviable on the area flooded, together with a punitive rate equal to this ordinary charge for each distinct and separate occasion on which water is so used ;
- (2) On uncultivated lands, the highest rate prescribed in the Rules made by the Local Administration under Section 36 of Act VIII of 1873, provided that in every such case the Divisional Canal Officer may impose a lower charge if he thinks fit, and provided further that this charge may be made for each distinct and separate occasion on which water is so wasted.

The area shall be measured up as soon as possible, and the persons chargeable with this rate having been determined in accordance with the provisions of Section 33 of Act VIII of 1873, notice shall on each occasion be given to them that they will be charged accordingly in the demand statement.

The special rates mentioned in this and in the preceding rule shall be in addition to such penalties as may be imposed under Section 70 of the Act.

34. \* \* \* \* \*

**35. Schedules of rates to be accessible to villagers.—**

Section 75.

The Patwári of every village irrigated by canal shall be furnished by the Divisional Canal Officer with a statement in Urdu, or the current written language of the district, showing the rates of assessment of each class of produce per ordinary local and canal measurements, which statement shall be suspended in the Hujra, or in a conspicuous position in a place of public resort.

36. \* \* \* \* \*

**37. Lambardars' fees.—**

Section 47.

The allowance to Lambardárs, or other persons collecting from cultivators, shall be 3 per cent. on the amount collected, on condition that the full amount due has been paid for each estate by the date fixed by the Revenue Commissioner, and that the Lambardár has performed his duty connected with the assessment, such as personal attendance or deputation of a proper substitute at the time of measurement, and correct report of irrigation.

Provided that it shall be at the discretion of the Deputy Commissioner or Divisional Canal Officer, as the case may be, subject to the appeal allowed by Rule 76, to withhold the whole or part of the allowances prescribed in Rule 37 in the event of the conditions not being complied with.

## PART XI.

## Subsidiary Rules.

67. Rules 67 A to 78, inclusive, of this part do not apply to the *haqdar* areas of the following villages irrigating from the Kabul River Canal :—

In the Peshawar Tahsil—

Kafir Dheri ; Sara Sang ; Shahi Bala ; Shahi Payan ; Painam Dheri Bala ; Painam Dheri Payan ; Mahal Gabri and Lala.

In the Nowshera Tahsil—

Ali Beg ; Kasim ; Kandi Taza Din ; Taru ; Tarnab ; Jabba Khalsa, and Misri Pura.

67 A. *Assessment and realization of occupiers' rate.*—The amount demandable for occupiers' rate shall be determined and apportioned by the Divisional Canal Officer, and the Deputy Commissioner shall realize the sums due.

68. *Khatauni to be accessible to villagers.*—The Patwári is responsible that the village copy of the *khatauni* or demand statement is at all times accessible to any person who pays for canal water.

Section 75.

69. *Distribution of parchas.*—As soon as the *khatauni* and *parchas* of a Canal Partwári's Circle are completed, he will inform the Lambardárs of the dates on which the *parchas* will be distributed in each village. The Lambardárs will call upon the irrigators to attend and receive the *parchas* from the Canal Patwári. Undistributed *parchas* will be entrusted to the Lambardárs of the village. The Canal Patwári will in every case endorse the date of distribution on the *parcha*.

70. *Complaints against khasrah entries.*—If a cultivator desires to contest the correctness of the entries made against him in the demand statement, whether as to the fact of the land having been irrigated, or of its being charged "flow" or "lift," or as to the measurement and entries of class or crop, he must lodge a complaint with the Divisional or Sub-Divisional Canal Officer, or Deputy Collector or Zilladár, within twenty-one days of the date on which the

Section 75.

*parchas* were distributed on the completion of the measurements of the village, or, if he has been charged without having done any irrigation from the Canal during the harvest under assessment, or, if no *parcha* has been delivered either to him or to the Lambardár, within ten days of the date on which he first became acquainted with the claim against him; and the claim shall be investigated on the spot, within fifteen days of receipt and promptly decided.

On a complaint being presented to a Zilladar, he will immediately make local enquiry and report the circumstances of the case to the Sub-Divisional Officer for orders.

The order of the Divisional or Sub-Divisional Canal Officer, or Deputy Collector, in such cases shall be forthwith communicated to the complainant, and shall be subject to the appeal provided in Rule 81.

71. *Objections may be made by a Lambardár, etc., on behalf of cultivator.*—When a Lambardár or other person is responsible, under Sections

Section 75.

46 and 47 of the said Act, for the payment of the occupier's rates in a village or any portion of a village, complaints under these rules may be lodged by such Lambardár or Contractor instead of by the cultivators, and any refund that may be necessary in consequence of the order passed upon objection so lodged, shall be paid by the Deputy Commissioner to such Lambardár or Contractor on account of the cultivators concerned.

72. *Method of dealing with alterations in the demand.*—If, after the giving of the *parcha*, any addition is made to the demand, or any reduction is allowed on a claim under Rule 20, or by way of remission under Section 32, clause (b), of the Act or otherwise, such addition or reduction shall be communicated to the cultivator by means of supplementary *parchas*. Demands shall be shown in black, and remissions in red letters. All such alterations as are made before the despatch of the *khatauni* to the Deputy Commissioner shall be included in that document, and shall also be written on slips similarly printed (black for additions and red for reductions) and attached to the *khatauni*. Alterations made after the despatch of the *khatauni* shall be communicated to the Deputy Commissioner by means of similar slips.

73. (Provided for in Rules 81 and 85.)

74. *Irrecoverable balances.*—When balances are found to be irrecoverable, owing to want of assets, absconding of defaulters or any other cause, they shall be reported by the Deputy Commissioner to the Revenue Commissioner, who if he sees fit will obtain the orders of the Hon'ble the Chief Commissioner.

75. *Refunds of canal revenue.*—

(i) Refunds of canal revenue from British Treasuries or Sub-treasuries shall be taken into consideration by the officer in charge of a Treasury or Sub-treasury on the application of the claimants or their legal representatives or of his own motion.

(ii) The officer dealing with any claim or refund shall not admit it until—

(a) he has satisfied himself that the remission, on account of which the claim is made, has been granted by a duly authorised person;

(b) the Revenue Accountant (Wasil Baki Navis) and the Treasury or Sub-Treasury Officer certifies that the sum was credited to Government on a specified date and in a specified item.

(iii) If after the investigation indicated in paragraphs (ii) (a) and (b), he is satisfied that the claims should be admitted, he shall pay them forthwith, unless the sums have been credited to Government in the accounts of any year earlier than the last preceding agricultural year, in which case the sanction of the Revenue Commissioner to the payment of the refund must be obtained.

76. *Appeal against retrenchment of fees.*—An appeal against retrenchment of fees

Section 75.

of Lambardárs and Patwáris shall lie to the Revenue Commissioner or Deputy Commissioner, according as the retrenchment has been made by the Deputy Commissioner or Divisional Canal Officer.

**Extension of time.**—But any appeal may be admitted after the period prescribed when the appellant satisfies the Court that he had sufficient cause for not presenting the appeal within such period.

If the period prescribed expires on a day when the Court is closed, the appeal may be presented on the day that the Court re-opens.

83. *Calculation of period.*—The period prescribed shall be calculated from the date of the decision or order appealed from, and in computing such period, the day when the decision or order was made, and the time requisite for obtaining a copy of the decision or order appealed against shall be excluded.

84. *Form of appeal.*—The application for admission of an appeal shall be stamped in accordance with the law in force relating to Court fees, and shall be accompanied by a copy of the decision or order appealed against, and shall state concisely the grounds upon which the appeal is preferred.

85. When an appeal is presented to the Deputy Commissioner pursuant to Rule 81 that officer may, if he thinks fit, after hearing the appellant, confirm the decision of the Officer without further enquiry.

If the Deputy Commissioner considers that the appeal should be enquired into, he shall refer it to the Divisional Canal Officer for enquiry and report.

The Divisional Canal Officer shall thereon enquire into the appeal following the procedure laid down in Rules 86 to 96, and shall report to the Deputy Commissioner the result of the enquiry with his recommendation as to the disposal of the appeal.

If the Deputy Commissioner concurs with the recommendation of the Divisional Canal Officer, he shall pass an order in the terms thereof. If he dissents, he shall refer the appeal for the decision of the Revenue Commissioner if it relates to Part V or to Rule 70 and to the Superintending Engineer in other cases.

The Revenue Commissioner or Superintending Engineer on receipt of an appeal so referred to him may at once pass orders on it, or may proceed as directed in Rules 86 to 96.

Nothing in this Rule shall be interpreted as applying to cases in which by the provisions of the Act an appeal lies to the Revenue Commissioner.  
e. g., Sections 19 and 27 of Act VIII of 1873.

86. *Procedure on admission of appeal.*—If the application be granted an entry thereof shall be made in a register of appeals numbered consecutively, and a day shall be fixed for the hearing of the appeal.

87. *Notice of hearing to be given.*—Notice of the date and place fixed for the hearing of the appeal shall be given to the appellant in such manner as the Court may direct, and to every other party to the case whose interest is opposed to that of the appellant in the manner hereinafter prescribed.

88. *Contents of notice.*—A written notice containing the title of the Court, the names of the parties, the date and place fixed for the hearing of the appeal, and such other particulars as the Court may, by general or special order, direct, shall be issued in duplicate under the hand and seal of the Court.

89. *Mode of service.*—All notices and processes issued in connection with appeals shall be served in the manner prescribed by Rules 79A to 79I in connection with the service of summonses and notices generally.

90. *Acknowledgment of personal service.*—When personal service is effected, the addressee shall be required to acknowledge the service by affixing his signature, seal or mark on the back of the duplicate copy to be retained by the serving officer.

91. *Memorandum by serving officer.*—The serving officer shall in every case endorse on the duplicate copy a memo. signed by him of the date and mode of service, and return such copy to the Court which issued it.

92. *Cost of service.*—The cost of serving any notice shall be borne in the first instance by the party appellant, and shall be paid to the proper officer of the Court before such notice is issued. The charge made for service shall be in accordance with the lowest civil process scale for the time being in force.

93. *Hearing may be postponed or adjourned.*—The hearing of an appeal may be postponed or adjourned from time to time, as the Court may see fit by written order to direct, to any subsequent date, and notice of such date shall be given to the parties in such manner as the Court may direct.

94. *Attendance or representation of parties not essential.*—The attendance of the parties, in person or by representative, shall not be necessary at the hearing of any petition of appeal, or of any appeal, but any party so attending shall be entitled to be heard.

95. *Court to be satisfied before hearing that notice has been received by parties.*—The Court shall not proceed to the hearing of any appeal unless and until it is satisfied that notice of the date and place fixed for such hearing has been received by the parties concerned in sufficient time to permit them to appear or to be represented at such hearing. Provided that the Court may presume that notice has been received when a written notice has been served in any of the ways described in Rule 89 above. Provided also that an appeal may be heard and decided, notwithstanding the absence of any party who is shown to the satisfaction of the Court to be wilfully evading service of notice.

96. *Procedure on hearing.*—(a) The Court, before passing its order or decision on the appeal, shall record in writing which (if any) of the parties to the appeal are present, in person or by representative at the hearing thereof.

(b) The Court, if it think further enquiry necessary, may conduct such enquiry itself and in such case shall be deemed to be an officer with the powers described in Section 69 of the Act.

(c) When the hearing of the appeal is concluded, the decision or order of the Court shall, when practicable, be pronounced forthwith, and shall be recorded in writing signed by the Court, and the substance thereof shall be explained to such of the parties or their representatives as are present when the decision or order is passed or given.

(d) Every decision or order recorded in English shall be translated into Urdu, and the translation shall be authenticated by the signature of the Court and filed with the proceedings.

97. *Copy thereof to be sent to Subordinate Officer.*—A copy of the decision or order shall be transmitted by the Court to the Officer from whose decision or order the appeal was preferred.

98. *Copies to be granted to parties.*—A copy of the decision or order of the Court, in English or Urdu, shall be granted to any person concerned or interested therein, who shall apply for the same, upon payment of the proper Court fees and copying charges.

99. *Of re-hearing in certain events.*—If any party against whom an order or decision is made or given upon an appeal heard in his absence shall, within thirty days from the date of such order or decision, satisfy the Court that he had received no notice of the time and place fixed for the hearing thereof, or had not received such notice in sufficient time to permit him to appear, and that he did not wilfully evade service thereof, the Court may pass an order, if it think such order requisite for the ends of justice (and not otherwise) upon such terms as appear just, setting aside its previous decision or order, and grant a re-hearing, which shall be subject to the same rules as the hearing of an appeal.

100. *Power of revision by Revenue Commissioner and Chief Engineer.*—The Revenue Commissioner may at any time call for any case which has come before a Deputy Commissioner, and the Chief Engineer may at any time call for any case which has come before a Superintending or Divisional Canal Officer, and pass such orders thereon consistent with the Act and the rules made thereunder as may seem proper.

101. *Power of revision by Local Administration.*—Orders passed by the Revenue Commissioner and the Chief Engineer shall be subject to revision by the Local Administration in the Irrigation Branch, Public Works Department.

102. *Finality of orders and decisions of Appellate Court.*—Except as provided in the three last preceding rules, or, as may be otherwise expressly provided in the rules for the time being in force, the order or decision passed upon any appeal shall be final.

103. *Scope of rules.*—Nothing contained in the foregoing rules applies to the hearing of an appeal from any decision or order in a criminal case under the Act.

104. *Procedure upon reference under Section 27.*—Upon a reference to the Revenue Commissioner under Section 27 of the Act, the procedure shall, so far as may be, be the same as is prescribed in Rule 2 upon a reference under Section 20 of the Act.

105. Except as provided in Rule 2 and in the last preceding rule, no person shall be entitled to be heard in person or by representative before the Superintending Canal Officer, Revenue Commissioner, or other higher authority to whom, under the provisions of the Act or the foregoing rules, any matter is submitted or referred for sanction, approval or decision. Nothing in this rule shall preclude the persons concerned from submitting for the consideration of any such officer or authority, petitions relating to any matter so submitted or referred.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 h. on Thursday;  
the 18th July 1907, based on the Indian Daily Weather Reports  
of the period.**

The fresh advance of the Arabian Sea monsoon current referred to in last week's "Rainfall Summary" proved to be feeble, and with the exception of a few falls of rain in Gujarat and south Rajputana rainfall due to this current has not extended farther north than the Central Provinces. The Bay current gave fairly widespread rain in northeast India and Burma on the 12th, but during the rest of the week rainfall was restricted chiefly to the northern districts of northeast India and the coast districts of Burma. Weather was dry and much hotter than usual in the United Provinces and the east of Central India.

**Burma.**—With the exception of the 16th when there was very little rain in any part of the province, rainfall was more or less general on the coast and local in the interior. Skies were moderately clouded and temperature was nearly normal.

**Northeast India and Orissa.**—Rainfall occurred over the greater part of the division on the 12th but during the rest of the week it was confined chiefly to the northern districts. Cloud was moderate to heavy, and on the first two days weather was cooler than usual in the central districts but during the rest of the period temperature was practically normal.

**The United Provinces, Central India and the Central Provinces.**—Rain fell in parts of the Central Provinces and at Indore, but in the rest of the division weather was dry. Skies were clear or lightly clouded in the United Provinces and lightly to moderately clouded elsewhere, and temperature was much higher than usual except in the Central Provinces where it was normal or in only slight to moderate excess.

*Northwest India.*—A few falls of rain were received in Gujarat and South Rajputana during the latter part of the week and a local disturbance occasioned light rain in the extreme north on the 12th. Skies were generally clear except in Lower Sind, Gujarat and parts of Rajputana from which areas light to moderate cloud was reported. Temperature was normal or in defect in Kashmir, Baluchistan and Sind and in more or less excess elsewhere.

*The Peninsula.*—Rainfall occurred in all parts of the division and was on the whole rather heavier than usual. Skies were moderately to heavily clouded and temperature was approximately normal.

The rainfall of the past week was above the average in Burma (Wet), the subdivisions of Sibsagar and Dinajpur and over the greater part of the Peninsula. For the whole monsoon period from the 3rd May to the 18th July rainfall is practically normal in Burma and the greater part of northeast India and of the Peninsula, and more than 20 per cent. in defect over the rest of the country: nowhere is there an excess of 20 per cent. The deficiency is greatest in the United Provinces, the Punjab and parts of Central India and of Rajputana, where it ranges from 75 to 93 per cent.

The following summarises the chief rainfall amounts of the week, as reported at 8 h. each day:

- July 12th. Lashio 1·18", Jessore 1·82", Purnea 1·31", Darbhanga 1·08", Raipur 1·08", Gulbarga 1·30", Raichur 1·29" and Hanumkonda 1·53".

## Season and Crop Prospects for the week ending Saturday, 13th July 1907.

**Burma.**—Ploughing and sowing are progressing favourably in Lower Burma and transplanting has commenced in Bassein, Myaungmya and Thaton. Prospects are favourable. No rain fell during the week in Shwebo, Myingyan, Sagaing and Kyaukse and it is much wanted particularly in the first two named districts. Nursery plants are withering in Katha and the standing crops in the Seikpyu township of Pakokku are not in good condition; in other districts prospects are favourable. The price of paddy has fallen considerably in Mandalay and Rangoon and slightly in Maubin and Henzada; it has risen largely in Katha; slightly in Myaungmya, Pakokku and the Arakan Hill Tracts; and is stationary elsewhere.

**Eastern Bengal and Assam.**—The weather is seasonable. The rainfall was general; it was heavy in Sylhet, Goalpara, Sibsagar, Garo Hills and in the Eastern Bengal districts generally. Prospects of the standing crops are generally fair to good. Plucking and manufacture of tea are in progress, prospects are poor in Kamrup and elsewhere fair to good. Ploughing for and transplantation of winter rice and harvesting of early rice and jute are in progress. Damage to early rice by flood and cyclone is reported from parts of Dacca, Bakarganj and Noakhali. Potatoes are being gathered in the Khasi Hills and prospects are very good. Prices of common rice:—Manipur 12; Kohima 9; Chittagong 8½; Comilla 8½; Dacca 8; Faridpur 6½ to 8; Mymensingh 7½; Rangamati, Sylhet and Dibrugarh 7½; Dinajpur 7½; Barisal, Jalpaiguri, Dhubri, Gauhati, Tezpur, Nowgong and Sibsagar 7; Tura 6 to 7; Silchar 6½; Pabna 6½; Noakhali and Rampur Boalia 6½; Bogra, 6½; Rangpur and Shillong 6½; and Ajial 5 seers per rupce. Prices have risen in six; fallen in five; and remained stationary in the remaining districts. One hundred and seventy-seven persons received gratuitous relief in Sylhet.

**Bengal.**—Rain was general in the Province but the fall was heavy in Jessore, Khulna, Angul and Cooch Behar; it was moderate in Nalja, Champaran, Bhagalpur, Darjeeling and Ranchi; and light in the rest of the Province. The recent heavy rain has done some damage to jute and paddy in Hooghly, Howrah, the 24-Parganas, Jessore and Khulna. Rain is still reported to be wanted in parts of Burdwan, Bankura, Shahabad and Palamau. Locusts passed through some districts of Behar but no appreciable damage has been done. In Darbhanga the number of persons on gratuitous relief in the observation area is 760 and in the famine area 11,086; the number of persons on relief works is 7,658; test works in the Madhubani subdivision of the district have been closed. Fodder and water are sufficient. The price of common rice has risen in five and fallen in eight districts.

**United Provinces.**—The light rain which has fallen is quite insufficient and more is urgently required for sowings which are being delayed and for standing crops which in places are withering. Irrigation is in progress where practicable. Injury to the cotton crop by insects is reported from parts of Bulandshahr and Cawnpore, and locusts have done some damage in Benares, Jaunpur, Ballia and Mirzapur. Fodder is dear in Aligarh, Farrukhabad, Buldaun, Bahraich, Sultanpur and Jaunpur, and scarce in ten other districts. The water-supply is becoming scanty in Jalaun and parts of Banda. Supplies are adequate, but prices are high and owing to uncertain prospects are rising in almost all districts.

**Punjab.**—Light to moderate rain has generally fallen in all districts except Ferozepore and Rawalpindi. The prices of food-grains are generally rising in Gurgaon, Ambala, Jullundur, Ferozepore, Lahore, Sialkot, Shahpur, Lyallpur and Multan; wheat is falling in Hissar, Rohtak and Rawalpindi. Ploughings for and sowings of cotton and other autumn crops continue; sugarcane and cotton crops are being weeded in Jullundur and Sialkot; tobacco is being cut in Lahore. The outturn of spring crops is good to poor; the condition of extra spring crops is good to average; cotton, sugarcane and other autumn crops are average in Ferozepore and Rawalpindi. Extra spring crops on unirrigated lands have begun to wither in Gurgaon; more rain is wanted in Hissar, Rohtak, Delhi, Ambala and Sialkot. The condition of cattle is generally good. Fodder is sufficient but green fodder is not available in Ferozepore. Water is insufficient in parts of Ambala and the supply is getting low in tanks in Rohtak.

**North-West Frontier Province.**—Good rain has fallen in parts of Dera Ismail Khan, and useful showers in all other districts but Peshawar. The standing crops are in good condition. Autumn sowings are in progress, more rain is badly needed everywhere. Heavy floods have occurred in Kurram and Gambila in the Bannu district; there is no irrigation from hill torrents in Dera Ismail Khan. The water-supply and fodder are sufficient. Cattle are in good condition. Prices of wheat are rising slightly but other crops

are stationary or falling. Prices :—wheat 16 to 21½; gram 16 to 22; maize 25 to 37½ and *bajra* 18½ to 22½ seers per rupee.

**Jammu.**—Rain slight. Prices are fluctuating. Prices :—wheat 11 to 22 and maize 14 to 36 seers per rupee. The condition of the standing crops is fair. Fodder is sufficient. Land is being prepared for autumn cultivation.

**Kashmir.**—The weather is bright and warmer. Spring crops have been almost harvested. Autumn sowings are completed. The standing crops are in good condition. Prices are stationary.

**Rajputana.**—Showers fell in many places during the week; the maximum fall was one inch 64 cents in Bundi. More rain is wanted to start sowings in places where they have not yet commenced. Land is being prepared for autumn cultivation. Cattle are in good condition except in some places in Mewar and Merwara. Pasturage and fodder are sufficient. Prices are rising in Marwar, Alwar, Bharatpur and Dholpur and are nearly steady elsewhere.

**Central India.**—No rain in Bundelkhand, general rain in Bhopawar and partial rain elsewhere. Preparation of land for autumn sowings is in progress and sowings have commenced in Bhopawar and parts of Bhopal and Indore. Agricultural stock and pasturage are fair to good, except in parts of Indore, Malwa and Bhopawar. Fodder is insufficient in Bhopawar and parts of Indore. Prices are high in Bhopawar and Baghelkhand; steady in Indore; and are rising elsewhere.

**Central Provinces.**—The weather has been hot and sultry. Light to moderate rain fell during the week throughout the Provinces; in the districts of Nagpur and Chhattisgarh the smallest quantity received was ¼ inch and the largest 5½ inches, rainfall in remaining districts ranges from 1½ inches in Jubbulpore to 5 cents in Damoh. More rain is urgently required in the Vindhyan, Satpura and Nerbudda Valley districts. In Saugor, Hoshangabad and Akola seedlings are suffering from want of moisture; agricultural operations are retarded in Balaghat and damage is apprehended unless rain is received; germination is defective over half of the Provinces, but is reported good in Mandla, Seoni, Wardha, Nagpur, Chanda, Bhandara and in the districts of Chhattisgarh and Berar (except Akola); early sown rice is thriving in Raipur and weeding has begun in parts of Wardha, Amraoti and Yeotmal, and transplantation of rice in Chanda and Bhandara. Preparation of land for spring sowings has been started in Saugor, Betul, Chhindwara, Seoni, Buldana and Yeotmal. Locusts appeared in Nimar, Betul and Chhindwara but did no damage. Fodder and water are adequate but fodder is very dear in parts of Saugor, Nimar, Hoshangabad, Nagpur, Wardha and Yeotmal. Prices of food grains remain stationary in ten districts and fluctuate slightly elsewhere with a tendency to rise; *juar* became dearer by 2½ seers in Betul; the prices of staple food-grains are still equal to or above the scarcity level in Bhandara, Wardha, Chanda, Balaghat, Mandla, Bilaspur, Drug, Buldana and Yeotmal.

**Native States.**—Raj-Nandgaon had 5½ inches of rain, Sarangarh 2, and Udaipur 1½; light showers not exceeding 62 cents were received in Kawardha, Kanker, Raigarh and Sakti. More rain is needed in Sakti. Sowing of autumn crops is in full swing everywhere. Fodder and water are sufficient. Rice became dearer by 2 seers in Udaipur.

**Bombay.**—There was good rain during the week in parts of Thana, Kanara, Sholapur and Bijapur; moderate in parts of Kolaba, Ratnagiri, Ahmednagar, Poona, Satara, Belgaum and Dharwar; and slight in parts of Sind, Gujarat, Khandesh, Nasik, Kathiawar, Baroda, Cutch, Palanpur, Mahi Kantha and Rewa Kantha. Inundation in Sind is not satisfactory. More rain is generally needed for autumn sowings which are retarded in parts of Karachi, Sukkur, Gujarat, the Deccan, the Karnatak, Cutch, Rewa Kantha and Mahi Kantha. Sowing continues elsewhere and transplantation is progressing in parts of Larkana and the Konkan but is retarded in parts of Kolaba, Ratnagiri, Kanara, Nasik and Poona. Seedlings are in good condition, except in parts of Karachi, Sukkur, Gujarat, West Khandesh, Poona, Belgaum, Baroda, Cutch and Rewa Kantha where they are suffering for want of sufficient moisture. The fodder supply is generally adequate. Agricultural stock is in good condition. Drinking water is sufficient, and the supply of water for irrigation is improving. The quantity of food grains purchaseable per rupee is in the Karnatak 23 to 43 per cent, in the Deccan 6 to 29 per cent; and elsewhere 12 to 45 per cent less than the normal. During the week ending the 6th instant 25 persons were relieved gratuitously in Belgaum.

**Hyderabad.**—Rainfall—1 inch 9 cents. The rainfall was fairly general. Prospects continue good. Autumn and early rice sowings are in progress. The standing crops are in good condition; more lands are being prepared for cultivation. Prices :—wheat 7½; coarse rice 7½; and *juar* 14½ seers per rupee.

**Mysore.**—Good rain in Bangalore, Kolar, Tumkur and Chitaldroog, and slight rain elsewhere. Prices of food-grains are steady. The standing crops are in good condition, but more rain is needed in parts of the State. Prospects of the season are good. Cattle are healthy and water and fodder are available.

**Coorg.**—Rainfall 2 inches 67 cents. Transplanting of rice has commenced. The prices of food-grains are normal. Water and fodder are sufficient.

**Madras.**—The rainfall was heavy in South Canara and Anantapur; good in Salem, Malabar, Cuddapah, South Arcot, Guntur, Bellary, Trichinopoly, Nilgiris, Kurnool, Vizagapatam Agency, North Arcot and Kistna; and light to fair elsewhere. Irrigation supplies are sufficient except in parts of Ganjam, the Deccan, Nellore, Chingleput, North Arcot, Salem, Madura and Tinnevely. Ploughing, sowing, weeding and transplanting are in progress. The standing crops are generally fair but some in parts of Kistna have been damaged and some in parts of Madura require more rain. Harvests are proceeding except in Vizagapatam, Kistna, Guntur, Kurnool, Bellary, Malabar and South Canara with outturn poor to normal. Pasture is sufficient except in parts of Bellary, Nellore, Madura and Tinnevely. Fodder is procurable. The condition of cattle is generally good. The price of rice is stationary in fourteen districts; has fallen in three; and has slightly risen in six. The prices of millets have fluctuated as follows:—*Ragi* is stationary in eleven districts; has fallen in three; and has slightly risen in seven. *Cholum* is stationary in six districts; has fallen in four; and has slightly risen in four. *Cumbu* is stationary in nine districts; has fallen in one; and has slightly risen in five.

**PART I.—OF IMPORTATION OF CARBIDE OF CALCIUM.**

Applicable to Maritime Provinces.

---

**PART II.—OF POSSESSION OF CARBIDE OF CALCIUM.**

1. No carbide of calcium shall be kept at any place, with or without a license unless it is "commercially pure," i.e., unless it contains no impurities liable to generate phosphoretted or siliciuretted hydrogen so as to render the gas evolved liable to ignite spontaneously.

Carbide of calcium to be "commercially pure."

2. No license shall be required for the possession of carbide of calcium (i) in any quantity not exceeding five pounds if it is kept in separate vessels, each containing not more than one pound, of the nature described in, and labelled as required by rule I of Part V; (ii) in any quantity exceeding five and not exceeding twenty-eight pounds where the following conditions are observed and the vessels containing it are labelled as required by rule I of Part V:—

- (a) the carbide shall be kept only in metal vessels hermetically closed at all times when the carbide is not actually being placed in or withdrawn from such vessels;
- (b) the vessels containing carbide shall be kept in a dry and well ventilated place;
- (c) due precautions shall be taken to prevent unauthorized persons from having access to the carbide,
- (d) notice shall be given of such keeping to the licensing authority referred to in rule 8 of this Part, and free access shall be afforded to any duly authorised inspector to inspect the portion of the premises where the carbide is kept and the generator, if any, is situated.

Where a fixed generator is used on the premises:—

3. Carbide of calcium in any quantity exceeding twenty-eight pounds may be kept only under a license to possess carbide of calcium granted under these rules. Every application for such a license shall be in Form A in the schedule, and, where the applicant proposes to engage in the manufacture of acetylene gas, the generating apparatus to be used by the licensee must, if manufactured in the Civil and Military Station of Bangalore and in the Railway lands in Mysore territory over which jurisdiction has been ceded to the British Government, have been examined by such competent authority as the Resident in Mysore may from time to time specially authorize in this behalf, and certified by it to be suitable; or, if imported, must either have been so examined and certified or be of a type approved by the Committee on Acetylene Generators appointed by the Department of His Majesty's Inspector of Explosives, London.

4. Notwithstanding anything contained in rule 3 of this Part, carbide of calcium may, with the special permission of the Resident in Mysore, and on such conditions as may be fixed by him, be stored without a license in premises provided for the purpose.
